**America's First Female Serial Killer** - Mary Kay McBrayer 2020-05-19

This is Capote's In Cold Blood for serial killer enthusiasts: meticulously researched, superbly written, and incredibly vivid. Don't miss it." —Gabino Iglesias, author of Coyote Songs America's First Female Serial Killer novelizes the true story of first-generation Irish-American nurse Jane Toppan, born as Honora Kelley. Although all the facts are intact, books about her life and her crimes are all facts and no story. Jane Toppan was absolutely a monster, but she did not start out that way. When Jane was a young child, her father abandoned her and her sister to the Boston Female Asylum. From there, Jane was indentured to a wealthy family who changed her name, never adopted her, wrote her out of the will, and essentially taught her how to hate herself. Jilted at the altar, Jane became a nurse and took control of her life—and the lives of her victims. "A thoughtful and inspired take on one of the greatest poisoners in history. America's First Female Serial Killer: Jane Toppan and the Making of a Monster seethes with rage, compulsion, and a righteous condemnation of the servitude of the underclass. A chilling and sobering read." —Robert Levy, author of The Glittering World "McBrayer offers us a complex—and terrifying—portrait of a killer who seemed almost doomed from birth." —Kate Winkler Dawson, author of American Sherlock: Murder, Forensics, and the Birth of American CSI "Brings the horrifying true story of Jane Toppan to lurid, novelistic life, and forces the reader face-to-face with the thoughtlessness and cruelty that helped turn a gifted, damaged child into one of America's most legendary killers." —Shaun Hamill, author of A Cosmology of Monsters

*The Book of Mothman* - John Keel 2015-01-17

New Saucerian Press proudly presents John Keel's "The Book of Mothman: Everything You Ever Wanted to Know About Reality Distortion But Were Afraid to Ask." The chapters in this Keel-approved collection, culled from New Saucerian's four recently published "Selected Writings of John Keel" books ("Flying Saucer to the Center of Your Mind," "The Outer Limits of the Twilight Zone," "Searching For the String," and "The Great Phonograph in the Sky"), coalesce to create a dazzling, mind-blowing "unified theory" concerning the parapsychical distortions and "glitches" seemingly invading our reality. Many of the articles in "The Book of Mothman" were written years before Keel's "Mothman Prophecies," while others were written years afterwards, making it a very unique and valuable source. With the addition of several 1990s lectures and an interview from 2003 - Keel's last on Mothman - researchers and enthusiasts gain a better sense of just what was going on in West Virginia and the Ohio Valley in the 1960s and '70s. True to form, Keel takes on the endless variety of high-strangeness surrounding Mothman and Mothman witnesses, such as UFOs, MIBs, little green men, hairy monsters, giants, animal mutilations, hypnotism, shapeshifting, psychological warfare, missing time, and phantom aircraft, automobiles, and humans. This special edition features a brilliant introduction by Gray Barker, a recently discovered foreword by John Keel, and a note from the editor, Andy Colvin. "As good an example of pure, unadulterated Keel as you are likely to find..." -Robert Durant, Pursuit Magazine "Decades ahead of all the 'respectable' Fortean and ufologists..." -UFO Magazine "Exposes the dark workings of the Mind Parasites..." -William S. Burroughs "Interesting and informed speculation..." -Brad Pitt

*Mothman* - Donnie Sergent 2002

This book will answer many questions regarding just what those couples saw outside the abandoned North Power Plant that night. Culled from a variety of sources, the materials presented inside are not conjecture--the authors are careful not to cross the line between fact and fiction--leaving any decisions regarding the truth behind the Mothman legend solely up to the reader. The text features eyewitness accounts, newspaper clippings, and previously unpublished information. **Jadoo** - John A. Keel 2013

Someone, we know not who, once called Jadoo "the greatest book ever written on the black magic of the Orient." But we do know that there will never again be another book like it. Jadoo, a Hindi word meaning "Black Magic," captures a world that is now lost to us--the strange, dark, mysterious world that was once called the "Orient." This story of a real-life Indiana Jones of the 1950s named John Keel contains everything but a trip to Venus in a flying saucer--a subject our newsman/explorer would become famous for a decade later. In Egypt, the fearless Keel was cursed by a mummy and befriended members of a strange snake-charming cult. In Iraq, he played Russian roulette with a notorious desert bandit and lived among the Yezidi devil-worshippers. Later, in India, he was buried alive and discovered the secret of the Indian rope trick, which he then performed for incredulous reporters in New Delhi. And in a riveting finale, he chased the Abominable Snowman through the little known Himalayan kingdom of Sikkim before being unceremoniously booted out of Singapore for being "an undesirable alien." This new edition contains material never before published. "One of the most traveled and imaginative raconteurs since Baron Munchausen." -- San Francisco Examiner "Here is a fireside adventure with a chill in it." -- Buffalo Evening News "A fabulous tour of Egypt, the Middle East, India, and Tibet." -- Hartford Times ..". a combination of cliff-hanging experiences with serious probing for the bizarre, the secretive, and the enigmatic." -- Kirkus

**John A. Keel** - Brent Raynes 2019-07-14

Brent Raynes' newest book, John A. Keel: The Man, The Myths, and the Ongoing Mysteries, chronicles the life of influential ufologist and American journalist, John A. Keel. The Mothman Prophecies movie (2002), a supernatural thriller starring Richard Gere, was loosely based on Keel's book of the same title. Brent had established a personal relationship with John Keel in 1969. Shortly after the movie's release, both men discussed its portrayal of Keel's book. Overall, Keel was satisfied that the movie had effectively captured both the essence of the foreboding atmosphere surrounding Point Pleasant, and the varied, inexplicable occurrences that residents experienced during that period. What sets Raynes' remarkable book apart from other books about Keel's life and work is both his personal relationship with Keel, and his unique, conversational, and intimate writing style. Raynes' book describes additional mysterious occurrences surrounding the legend of the Mothman Prophecies, similar to the cases in the movie. Join Raynes as he explores the true and incredible events Keel investigated. Keel's pioneering work continues to influence the author in addition to researchers who carry on studies of these "ongoing mysteries."

*Summary of John A. Keel's The Mothman Prophecies* - Everest Media 2022-07-25T22:59:00Z

Please note: This is a companion version & not the original book. Sample Book Insights: #1 In 1967, a stranger appeared in the back hills of West Virginia. He was dressed entirely in black, and he wore a black suit, black tie, black hat, and black overcoat. His face was barely visible in the darkness, and his voice lacked the typical West Virginia accent. #2 Being a nonconformist is not easy these days. I grew my beard in 1966 while loafing on the farm of my friend, zoologist Ivan T. Sanderson. I kept it until 1968 when hair became popular and half the young men in America began burying their identities in a great sea of facial hair. #3 The fact that many seemingly straight-forward accounts of monster sightings and UFO landings can be explained by irritatingly complex medical and psychological theories should not discount them. The theories may seem more unbelievable than the original events, but they are still worth considering. #4 The house in New York's Greenwich Village is haunted by a strange ghost. Some people can move objects with the power of their minds alone, and some can see radiations and objects invisible to the rest of us.

*I Don't Know What You Know Me From* - Judy Greer 2015-04-28

This is Judy Greer's story, from her self-described childhood as "Ugly Judy" in suburban Detroit-ish, Michigan, to trying out for drama school to get even with her frenemy, and then breaking into movies as the ultimate best friend. Judy is a refreshingly honest, self-deprecating, and totally relatable guide to Hollywood life, speaking candidly about what it's really like to shoot on location, to go to the Oscars, and to

feel like you're building a tortoise career in a town full of hares. Beneath the Spanx, Judy is like the best friend you've always wanted. She chills out with her giant, gassy bulldog, Buckley; meets the love of her life on a blind date; happily dives into being a stepparent; and through it all maintains an unshakeable belief in the restorative power of a late-night drugstore run.

**Visitors from Lanulos (Original Edition)** - Woodrow Derenberger 2021-07-30

New Saucerian Press proudly presents the original first edition of the "lost" ufological classic, "Visitors From Lanulos!" Initially published in 1971, this book became perhaps the rarest "contactee" book ever. Prior to its reissue, there were only a half-dozen copies remaining in the world's library system, with the rest trading for thousands of dollars each. Woodrow Derenberger, the author of the book, claimed to have had a series of strange adventures beginning on November 2nd, 1966. While driving home from Parkersburg, West Virginia to his suburban home in Mineral Wells, he suddenly found the highway blocked by a large gray object. Someone emerged from the object and walked to the passenger side window of his car. The man introduced himself as "a searcher," and offered words of comfort to Derenberger. After noting that he would come again, the "spaceman," who called himself "Indrid Cold," stepped back into the object and it rose out of sight. Derenberger went home and told his story to his wife. He then called the police and the press. Soon after, other witnesses came forward to say that they, too, had seen Cold talking to Derenberger by the side of the road. (In time, several locals would have their own encounters with Cold.) Two days later while driving in his car, Derenberger began to receive telepathic communications from Cold, who described himself as from the "galaxy of Ganymede." Cold also supplied some information about his life, including the observation that people on his planet (Lanulos) lived to be 125 to 175 of our Earth years. Over the next weeks, other stories would accumulate that substantiated other parts of Derenberger's story, including independent UFO sightings on November 4th. An initial investigation concluded that Derenberger was not a fraud or hoaxer, and was mentally and psychologically sound. Throughout this period, Derenberger's direct contacts with Indrid Cold continued. He learned much about Cold's people and their desire for friendly contact. In 1967, Cold took Derenberger for a ride in his spaceship. Strangely, they visited the oilfields of Iraq and Afghanistan, as well as Cold's lush, jungle planet, which was populated by beautiful humanoids wearing no clothes. Derenberger told his story frequently over the next few years, and his story was given extended treatment by Fortean researcher John A. Keel, who wrote the Foreword to the book. Through the 1980s, Derenberger assumed a low profile, though he continued to correspond with a small group of people who believed his accounts. In fact, he forwarded many letters from Cold to these fans. (Cold actually lived in a house in Midway, West Virginia before moving to Cleveland in the 1980s.) In the years since, other evidence has been discovered pointing to Cold's possible intelligence connections, and the fact that he may have actually piloted an early aerial drone designed by the U.S. military. Was there an underground flying saucer manufacturing plant near Woody's home, perhaps in Point Pleasant, home of the "Mothman?" Were Cold and his associates trying to bamboozle locals into thinking the military drones were from outer space? Or were they really interdimensional "Men in Black" or "spacemen?" Check out this fascinating read for clues both astounding and confounding.

**The Mothman Prophecies** - John Keel 2015-01-01

A classic true story of modern horror... For thirteen months, the town of Point Pleasant, West Virginia is gripped by a dark terror that culminated in a tragedy that made headlines around the world. This is a story that contains all the elements of a modern science-fiction movie, except that every word is true, and fully documented by famed journalist John A. Keel. Homes throughout the little town were plagued with unearthly noises and ghostly manifestations, while mysterious aerial lights traveled silently overhead - seemingly on a regular schedule. Winged monsters and frightening apparitions terrified the population, as automobiles stalled and telephones and television sets ran amok. A Red Cross bloodmobile filled with fresh blood was pursued along a darkened highway by a weird flying machine. Domestic animals were found slaughtered and mutilated in pastoral farm fields. Innocent people live in surrealistic horror, haunted by the fearsome "Bird," and besieged by legions of strange beings (some of whom arrived in black suits and black automobiles). John A. Keel, world-traveler and noted Fortean investigator, spent over a year in Point Pleasant, where he saw and experienced many of the strange manifestations personally. *The Mothman Prophecies* has been translated and published in fourteen languages, and is regarded as a major classic in the annals of modern parapsychology. It is guaranteed to shake your beliefs and concepts about reality. It will open your mind to things you never dared think about before. And it will scare the hell out of you!

**Mothman** - Jeff Wamsley 2005-01-01

**Politics of the Imagination** - Colin Bennett 2008-06-01

A great American crank, in the best sense of the word, Charles Hoy Fort (1874-1932) spent his life hunting down reports of "anomalous phenomena"- "damned" events such rains of frogs, cattle mutilations, and UFO sightings-and studying them from a true outsider's perspective, one that characterized even objective science as wearing blinders in its approach to them. In this modern classic of analytical biography, Colin Bennett examines not only the life of this one-man investigator of real-life X-Files but his work as well, likening him to such diverse figures that loom in the cultural imagination as Lee Harvey Oswald and Shakespeare's Hamlet. A must-read for fans of the strange, this riveting book explores why the 20th century, which gave rise to conspiracy-theory philosophies and widespread distrust of social authority, embraced Fort so wholly that his name has been immortalized in the adjective "Fortean." In the course of a delightfully misspent youth, COLIN BENNETT was employed as both a musician and as a mercenary soldier. He was far better at the second than at the first. Educated at Balliol College, Oxford, he is the author of the novels *Infantryman* and *The Entertainment Bomb*, and paranormal nonfiction including *Looking for Orthon*, a biography of George Adamski; *Politics of the Imagination*, a biography of Charles Fort; and *An American Demonology*, about the head of the 1950s UFO-hunting agency Project Blue Book.

**The Lake Michigan Mothman: High Strangeness in the Midwest** - Tobias Wayland 2019-11-20

Author and investigator Tobias Wayland has collected these reports for the first time in one volume, along with his analysis and insider perspective as a member of the investigative team. The phenomena described within represent the continuation of a decades-long series of events first recorded in Point Pleasant, West Virginia, in the late '60s, but that has likely been with humanity since our advent, and seems just as likely to be with us until our end.

*The Silver Bridge* - Gray Barker 2008-10-01

She's a barmaid and wants to work with animals. Nina's been roped into helping some friends with their amateur 'Moth-man' documentary. Of course, she doesn't believe in such silly myths, but she needs something to take her mind off her ex-boyfriend. Unluckily for Nina, her world is about to be blown apart by the ugly-as-sin truth... Looks like Moth and Nina have got enough on their plates... and that's not including the gas-mask wearing cult, the ticking, blade-fingered robot or the old man with the crows flying around him... 'A MACABRE MYTH OF A MOTH-MAN' is the debut novel of author Brad Fear: a union of urban fantasy and noir, chronicling the tale of a seemingly clueless insect detective.
