An engrossing record of Mao's impact on

China, an unusual window on the female experience in the modern world, and an inspiring tale of courage and love, Jung Chang describes the extraordinary lives and experiences of her family members: her grandmother, a warlord's concubine; her mother's struggles as a young idealistic Communist; and her parents' experience as

members of the Communist elite and their ordeal during the Cultural Revolution. Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a “barefoot doctor,” a steelworker, and an electrician. American English File - Clive Oxenden
2010-01-07

"Texts must be interesting enough for students to want to read them in their own language.

Otherwise, how can we expect students to want to read them in English?" This is the authors' golden rule when they choose texts and topics for every level of American English File. It ensures you get material that learners will enjoy reading and will want to talk about. Texts such as "Could you live without money?" really help to generate opinion and discussion. They create a desire to communicate. Having created the desire, American English File then helps you to develop learners' communication skills. One way it does this is with a strong focus on pronunciation. Research shows that poor pronunciation is a major contributor to breakdowns in communication (Jennifer Jenkins: The Phonology of English as an International Language). American English File integrates pronunciation into every lesson - the "little and often" approach. But that's not all. The unique English File Sounds Chart puts a picture to each sound in the phonetic alphabet, so learners find it easier to remember the sounds and,

ultimately, improve their pronunciation.

Perspectives Advanced - National Geographic Learning 2017-08-30

AMERICAN ENGLISH FILE - 2019

The Japanese Automotive Industry - Robert E. Cole 1981-01-01

As the University of Michigan Center for Japanese Studies reflected on the deteriorating position of the domestic auto industry in the fall of 1980, and the strong competitive threat being posed by the Japanese automakers, we were struck by the extraordinary low quality of the public discussion of these critical issues. The national importance of the issues seemed only matched by the superficiality of the analyses being offered. The tendency to think in terms of scapegoats was particularly evident. The

Japanese as the basic cause of our problems has been a particularly notable theme. To be sure, cooperation with the Japanese in formulating a rational overall trade policy may be an important part of the solution. It has also been fashionable to blame it all on American auto industry management for not concentrating on the production of small cars when "everyone knew" that was the thing to do. Alternatively, government meddling was blamed for all our problems. Clearly, the complex problem we faced required more penetrating analyses. It seemed therefore, that the time was ripe for a public seminar which moved beyond the rhetoric of the moment and probed some of the deeper causes of our problems and possible directions for future policy. In holding the January 1981 auto conference, the Center took it as their task to begin addressing the critical issues facing the industry, with particular, but not exclusive, attention to examining the role of the Japanese auto industry. They had in mind not to simply

conduct a rational discussion of the trade issue but to probe the sources of Japanese competitive strength, especially those features whose study might profit them. In these proceedings, they bring those discussions to a wider audience. Question and answer sessions at the conference were necessarily short and a few speakers delivered abbreviated remarks; this volume restores a number of omissions, and provides additional answers to some pertinent questions put by the audience. The Center hopes to encourage the serious problem-solving these complex issues demand. Far too much time has been spent trying to fix the blame. [intro] *The Art of Brasília* - Sophia Beal 2020-01-29 People from outside of Brasília often dismiss Brazil's capital as socially divided, boring, corrupt, and emotionally cold. Apparently its founders created not a vibrant capital, but a cultural wasteland. However, as Sophia Beal argues, Brasília's contemporary artists are out to prove the skeptics wrong. These twenty-first-

century artists are changing how people think about the city and animating its public spaces. They are recasting Brasília as a vibrant city of the arts in which cultural production affirms a creative right to the city. Various genres—prose, poetry, film, cultural journalism, music, photography, graffiti, street theater, and street dance—play a part. Brasília's initial 1960s art

was state-sanctioned, carried out mainly by privileged, white men. In contrast, the capital's contemporary art is marked by its diversity, challenging norms about who has a voice within the Brasília art scene. This art demystifies the capital's inequities and imagines alternative ways of inhabiting the city.
