101 Trauma-Informed Interventions - Linda A. Curran, BCPC, LPC, CACD, CCDPD, EMDR Level II Trained 2013-05-01

This is an imminently practical workbook that shows a variety of invaluable techniques to get centered, calm and organized. An effective and enjoyable guide to help you feel in charge of yourself." ~ Bessel van der Kolk, M.D. This is the workbook that all mental health professionals wish they had at the beginning of their careers. Containing over 100 approaches to effectively deal with trauma, this workbook pulls together a wide array of treatments into one concise resource. Equally useful in both group and individual settings, these interventions will provide hope and healing for the client, as well as expand and solidify the professional's expertise. Tools and techniques drawn from the most effective trauma modalities: * Art Therapy * CBT * DBT * EFT * EMDR * Energy Psychology * Focusing * Gestalt Therapy * Guided Imagery * Mindfulness * Psychodrama * Sensorimotor Psychology * Somatic Experiencing and Movement Therapies - BONUS: Book includes a link to all reproducible worksheets! Print and use with clients right away!! Praise for *101 Trauma-Informed Interventions*: "Linda Curran's unflagging energy and dedication to the healing of traumatized individuals has led to a voluminous, exciting, and comprehensive, *101 Trauma Informed Interventions*. This workbook provides a plethora of effective tools -- traditional as well as innovative -- that can be used in whole or as a part of a course of therapy and also as self-help. The variety of options offered goes a long way towards dispelling the (unfortunately) popular misconception that there are only a limited number of interventions that help people to recover from trauma. Survivors as well as therapists who have been frustrated by the rigidity of strict adherence to evidence based practice will be greatly relieved to find a wealth of useful strategies to experiment, evaluate, and sort into a personally tailored trauma recovery program. This workbook is a god-send for the trauma field, expanding the possibilities for recovery in a most generous way." ~ Babette Rothschild, MSW author of *The Body Remembers* and *8 Keys to Safe Trauma Recovery* "Linda Curran has carefully and knowledgeably curated a practical, effective collection of interventions that actually work for trauma survivors. Any clinician committed to helping those suffering from posttraumatic stress needs to have these tools and resources to draw upon, because standard talk therapy, nine times out of ten, is simply not going to cut it. These exercises will." ~ Belleruth Naparstek, LISW, author of *Invisible Heroes: Survivors of Trauma and How They Heal* "Drawing from the whole spectrum of trauma-based therapies, Linda Curran has compiled a sampling of practical exercises designed to help therapists and their clients better navigate the mine field that trauma work can be and find the path to healing." ~ Richard Schwartz, Ph.D. author of *Internal Family Systems Therapy* "101 Trauma-Informed Interventions provides an accessible functional "playbook" for therapists committed to the rehabilitation of the client with a trauma history. In a readable volume Curran integrates diverse approaches of treatment and emphasizes the unique role that trauma plays in mental health. Underlying this eclectic strategy is the common theme emphasizing that healing will only begin when the trauma related feelings embedded in the body are appreciated." ~ Stephen W. Porges, Ph.D., author of *The Polyvagal Theory* "An interesting compendium of potential interventions that can be interwoven into any therapist's existing conceptual framework" ~ Louis Cozolino, Ph.D., Pepperdine University, and author of 5 books including the best-seller *The Neuroscience of Psychotherapy, Healing the Social Brain* (2nd edition)

Binnie the Baboon Anxiety and Stress Activity Book - Karen Treisman 2019-11-21

Binnie is a creative and energetic baboon, who bounces around the lush green mountains of Rwanda in East Africa. But like many of us, Binnie often feels worried and stressed, and these worries can get in her way! What if she gets lost in the jungle, or her family gets sick? What if no one likes her? Sometimes she even worries about the fact she's worried; and if she isn't worried, well why not?! This activity book has been developed by expert child psychologist Dr Karen Treisman. The first part of the book is a colourful illustrated therapeutic story about Binnie the Baboon, with a focus on worry and anxiety. This is followed by a wealth of creative activities and photocopyable worksheets for children to explore issues relating to anxiety, worry, fears, and stress, and how to find ways to understand and overcome them. The final section of the book is full of advice and practical strategies for parents, carers, and professionals on how to help

children aged 5-10 to start to understand why they experience feelings of anxiety, and what they can do to help reduce and navigate it.

101 Mindful Arts-Based Activities to Get Children and Adolescents Talking - Dawn D'Amico 2016-12-21

Many children who have experienced serious trauma are withdrawn and closed off, making it difficult to engage with them in therapy effectively. This book offers a compendium of therapeutic activities that will help children who have endured painful abuse to open up, so that they can learn to express their feelings and therapy can be directed towards their individual needs. From useful techniques for bridging memory gaps to using masks for self-expression, the innovative activities use mindfulness, art and play to help children feel relaxed and responsive. The activities require very little preparation, and use only everyday items that are easy to access and can be used time and time again. Case studies throughout offer a helpful demonstration of how the activities work in practice. This is an ideal resource for use with children in therapeutic, home and school settings. It is appropriate to use with children aged 5-17 who have experienced trauma, physical abuse, sexual abuse, forced migration and severe neglect, as well as those with acute depression, anxiety and behavioural difficulties.

The Book of Mistakes - Corinna Luyken 2017-04-18

Zoom meets Beautiful Oops! in this memorable picture book debut about the creative process, and the way in which "mistakes" can blossom into inspiration One eye was bigger than the other. That was a mistake. The weird frog-cat-cow thing? It made an excellent bush. And the inky smudges... they look as if they were always meant to be leaves floating gently across the sky. As one artist incorporates accidental splotches, spots, and misshapen things into her art, she transforms her piece in quirky and unexpected ways, taking readers on a journey through her process. Told in minimal, playful text, this story shows readers that even the biggest "mistakes" can be the source of the brightest ideas—and that, at the end of the day, we are all works in progress, too. Fans of Peter Reynolds's *Ish* and Patrick McDonnell's *A Perfectly Messed-Up Story* will love the funny, poignant, completely unique storytelling of *The Book of Mistakes*. And, like *Oh, The Places You'll Go!*, it makes the perfect graduation gift, encouraging readers to have a positive outlook as they learn to face life's obstacles.

The Daily Stoic - Ryan Holiday 2016-10-18

From the team that brought you *The Obstacle Is the Way* and *Ego Is the Enemy*, a beautiful daily devotional of Stoic meditations—an instant *Wall Street Journal* and *USA Today* Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. *The Daily Stoic* offers 366 days of Stoic insights and

exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

Rewire Your Brain - John B. Arden 2010-03-22

How to rewire your brain to improve virtually every aspect of your life-based on the latest research in neuroscience and psychology on neuroplasticity and evidence-based practices Not long ago, it was thought that the brain you were born with was the brain you would die with, and that the brain cells you had at birth were the most you would ever possess. Your brain was thought to be "hardwired" to function in predetermined ways. It turns out that's not true. Your brain is not hardwired, it's "softwired" by experience. This book shows you how you can rewire parts of the brain to feel more positive about your life, remain calm during stressful times, and improve your social relationships. Written by a leader in the field of Brain-Based Therapy, it teaches you how to activate the parts of your brain that have been underactivated and calm down those areas that have been hyperactivated so that you feel positive about your life and remain calm during stressful times. You will also learn to improve your memory, boost your mood, have better relationships, and get a good night sleep. Reveals how cutting-edge developments in neuroscience, and evidence-based practices can be used to improve your everyday life Other titles by Dr. Arden include: Brain-Based Therapy-Adult, Brain-Based Therapy-Child, Improving Your Memory For Dummies and Heal Your Anxiety Workbook Dr. Arden is a leader in integrating the new developments in neuroscience with psychotherapy and Director of Training in Mental Health for Kaiser Permanente for the Northern California Region Explaining exciting new developments in neuroscience and their applications to daily living, Rewire Your Brain will guide you through the process of changing your brain so you can change your life and be free of self-imposed limitations.

Using the Visual and Performing Arts to Encourage Pro-Environmental Behaviour - David Curtis 2020-10-06

Ecoarts practice is evolving quickly as a practice. While much of it is made by individual artists working alone, artists are increasingly combining into multi-artist collectives, and collaborating with scientists, sustainability professionals, industry or the community to develop artworks with quite far-reaching effects. This book describes an extraordinary range of artistic practices pitched to encourage people to adopt pro-environmental behaviours by provoking, persuading, providing information, creating empathy for nature or by being built into sustainability practices themselves. It brings together 28 contributors who examine different roles of the arts in encouraging pro-environmental behaviour. There is a wide range of practitioners represented here, including visual and performing artists, sustainability professionals, social

researchers, environmental educators, research students and academics. The contributors to this book are united in believing that the arts are vital in promoting pro-environmental behavior in the way that they are practiced, but also in the connections they make to ecology, science and Indigenous culture.

The Self-Regulation Workbook for Kids - Jenna Berman 2021-08-03

Help your child identify, understand, and take control of their feelings with the kid-friendly cognitive behavioral therapy and self-regulation exercises in this easy-to-use workbook. When children have difficulty self-regulating, it can make it harder for them to get along with peers and family members, hurt their academic achievement, and inhibit their ability to complete activities of daily living. That's where this book comes in. In this evidence-based workbook, the reader follows the journey of a child just like them—who experiences all kinds of emotions and thoughts and learns how to take control of them. The *Self-Regulation Workbook for Kids* allows kids to explore and express their feelings, guided by a relatable character and reinforced through interactive worksheets and proven exercises. The CBT-based activities and advice in this workbook will empower children with concrete coping skills and techniques that they can return to each and every time they start to feel upset or stressed.
