[The Moneyless Manifesto](#) - Mark Boyle 2012

*A Handmade Life* - William Coperthwaite 2007-03-07  
William Coperthwaite is a teacher, builder, designer, and writer who for many years has explored the possibilities of

true simplicity on a homestead on the north coast of Maine. In the spirit of Henry David Thoreau, Emily Dickinson, and Helen and Scott Nearing, Coperthwaite has fashioned a livelihood of integrity and completeness-buying almost nothing, providing for his own needs, and serving as a guide and companion to hundreds of apprentices drawn to his unique way of being. A Handmade Life carries

Coperthwaite's ongoing experiments with hand tools, hand-grown and gathered food, and handmade shelter, clothing, and furnishings out into the world to challenge and inspire. His writing is both philosophical and practical, exploring themes of beauty, work, education, and design while giving instruction on the hand-crafting of the necessities of life. Richly illustrated with luminous color photographs by Peter Forbes, the book is a moving and inspirational testament to a new practice of old ways of life.

The Wake - Paul Kingsnorth  
2015-09-01

"A work that is as disturbing as it is empathetic, as beautiful as it is riveting." —Eimear McBride, *New Statesman* In the aftermath of the Norman Invasion of 1066, William the Conqueror was uncompromising and brutal. English society was broken apart, its systems turned on their head. What is little known is that a fractured network of guerrilla fighters took up arms against the French occupiers.

In *The Wake*, a postapocalyptic novel set a thousand years in the past, Paul Kingsnorth brings this dire scenario back to us through the eyes of the unforgettable Buccmaster, a proud landowner bearing witness to the end of his world. Accompanied by a band of like-minded men, Buccmaster is determined to seek revenge on the invaders. But as the men travel across the scorched English landscape, Buccmaster becomes increasingly unhinged by the immensity of his loss, and their path forward becomes increasingly unclear. Written in what the author describes as "a shadow tongue"—a version of Old English updated so as to be understandable to the modern reader—*The Wake* renders the inner life of an Anglo-Saxon man with an accuracy and immediacy rare in historical fiction. To enter Buccmaster's world is to feel powerfully the sheer strangeness of the past. A tale of lost gods and haunted visions, *The Wake* is both a sensational, gripping story and a major literary achievement.

*Choosing Simplicity* - Linda Breen Pierce 2000

This ground breaking work goes beyond the books that tell you how to simplify your life. This book reveals what has happened in the lives of real people who have done it. Based on the author's three-year study of over 200 people from 40 states and eight countries, *Choosing Simplicity* is a delightful and rich blend of real-life profiles and guidelines on simplicity. Interwoven throughout the stories are the author's insights and guidance for those who want to explore simplicity and those who have already embarked on this journey. The book also includes a 16-page Resource Guide with reviews of 42 books on simplicity, information on related web sites, organizations, simplicity study circles, workshops, newsletters and magazines.

*Company of One* - Paul Jarvis 2019

What if the real key to a richer and more fulfilling career was not to create and scale a new start-up, but rather, to be able

to work for yourself, determine your own hours, and become a (highly profitable) and sustainable company of one? Suppose the better--and smarter--solution is simply to remain small? This book explains how to do just that. *Company of One* is a refreshingly new approach centered on staying small and avoiding growth, for any size business. Not as a freelancer who only gets paid on a per piece basis, and not as an entrepreneurial start-up that wants to scale as soon as possible, but as a small business that is deliberately committed to staying that way. By staying small, one can have freedom to pursue more meaningful pleasures in life, and avoid the headaches that result from dealing with employees, long meetings, or worrying about expansion. *Company of One* introduces this unique business strategy and explains how to make it work for you, including how to generate cash flow on an ongoing basis. Paul Jarvis left the corporate world when he

realized that working in a high-pressure, high profile world was not his idea of success. Instead, he now works for himself out of his home on a small, lush island off of Vancouver, and lives a much more rewarding and productive life. He no longer has to contend with an environment that constantly demands more productivity, more output, and more growth. In *Company of One*, Jarvis explains how you can find the right pathway to do the same, including planning how to set up your shop, determining your desired revenues, dealing with unexpected crises, keeping your key clients happy, and of course, doing all of this on your own.

**Fat Bloke on a Bike** - Paul J. Parsons 2017-10-06

Paul is much more than your average cyclist. About five stones more. Desperate to escape the daily grind, he heads for the Scottish Highlands and finds that a change involving a pushbike and hills isn't always as good as a rest for a fat bloke.

Fuelled by coffee, cake and conversations, this unlikely adventure takes Paul to the top of the world and the edge of despair. It's a journey of new experiences, stunning scenery, and the unexpected kindness of strangers. 'Fat Bloke on a Bike' follows Paul's novice attempt at cycle-touring as, huffing and puffing, he hauls his seventeen stones from Weardale in the North Pennines, along the North Sea Coast, and through Scotland's cities, islands and highlands to Inverness.

Would it be possible to live for an entire year without money? [Nomadland: Surviving America in the Twenty-First Century](#) - Jessica Bruder 2017-09-19

The inspiration for Chloé Zhao's 2020 Golden Lion award-winning film starring Frances McDormand. "People who thought the 2008 financial collapse was over a long time ago need to meet the people Jessica Bruder got to know in this scorching, beautifully written, vivid, disturbing (and occasionally wryly funny)

book." —Rebecca Solnit From the beet fields of North Dakota to the campgrounds of California to Amazon's CamperForce program in Texas, employers have discovered a new, low-cost labor pool, made up largely of transient older adults. These invisible casualties of the Great Recession have taken to the road by the tens of thousands in RVs and modified vans, forming a growing community of nomads. *Nomadland* tells a revelatory tale of the dark underbelly of the American economy—one which foreshadows the precarious future that may await many more of us. At the same time, it celebrates the exceptional resilience and creativity of these Americans who have given up ordinary rootedness to survive, but have not given up hope.

**Ishmael** - Daniel Quinn  
1995-05-01

One of the most beloved and bestselling novels of spiritual adventure ever published, *Ishmael* has earned a passionate following. This special twenty-fifth anniversary edition features a new

foreword and afterword by the author. “A thoughtful, fearlessly low-key novel about the role of our species on the planet . . . laid out for us with an originality and a clarity that few would deny.”—The New York Times Book Review  
Teacher Seeks Pupil. Must have an earnest desire to save the world. Apply in person. It was just a three-line ad in the personals section, but it launched the adventure of a lifetime. So begins an utterly unique and captivating novel. It is the story of a man who embarks on a highly provocative intellectual adventure with a gorilla—a journey of the mind and spirit that changes forever the way he sees the world and humankind’s place in it. In *Ishmael*, which received the Turner Tomorrow Fellowship for the best work of fiction offering positive solutions to global problems, Daniel Quinn parses humanity’s origins and its relationship with nature, in search of an answer to this challenging question: How can we save the world from

ourselves? Explore Daniel Quinn's spiritual Ishmael trilogy: ISHMAEL • MY ISHMAEL • THE STORY OF B Praise for Ishmael "As suspenseful, inventive, and socially urgent as any fiction or nonfiction you are likely to read this or any other year."—The Austin Chronicle "Before we're halfway through this slim book . . . we're in [Daniel Quinn's] grip, we want Ishmael to teach us how to save the planet from ourselves. We want to change our lives."—The Washington Post "Arthur Koestler, in an essay in which he wondered whether mankind would go the way of the dinosaur, formulated what he called the Dinosaur's Prayer: 'Lord, a little more time!' Ishmael does its bit to answer that prayer and may just possibly have bought us all a little more time."—Los Angeles Times Living Faith - Helen Roseveare 2007-09-20 Helen tells stories from her experience that help us to understand the role of faith in our lives and how to strengthen

it. You Might Want To Marry My Husband - Yap Swi Neo 2021-12-01 My first aunt, Tua-Ee, left hand on hip, right hand holding a ladle of boiling salted vegetable and duck soup, would administer the test. Looking straight into our eyes, she would ask, "Is the soup done?" If we got it wrong, she scolded us, "Next time, what would your mother-in-law say, ah? Your mother n-e-v-e-r teach you. Where to put your face? So malu!" My cousin and I swore we would never ever get married and live with mothers-in-law who would administer the "Is the soup done?" test and put our mothers to shame. In this intimate collection of autobiographical stories that every woman should read, Swi offers tales of deep reflection that relate to the tears and laughter, and the love and pain felt by girls and women in Malaysia and Singapore over the last 75 years. Swi recalls the convent sisters in Malacca who educated her and her classmates about sex, the

camaraderie among girlfriends, and desires fulfilled. She explores issues of life and death and shares memories of the unforgettable men in her life. Swi holds in high regard the mothers under banana leaf umbrellas who dreamed great dreams for their children, and she introduces us to memorable characters including 'bling, bling, the real thing, Pansy', a lecherous Baba patriarch and his complaining wife, a Jonker Street cake shop baker whose strong arms are made to hug, a Singaporean academic with low EQ, and a nameless Malaysian bondmaid who must secure her place in a wealthy household. These are stories from the heart.

### **Adventures in Opting Out -**

Cait Flanders 2020-09-15

Opt out of expectations and live a more intentional life with this refreshing guide from the national bestselling author of *The Year of Less*. We all follow our own path in life. At least, that's what we're told. In reality, many of us either do what is expected of us, or follow the invisible but well-

worn paths that lead to what is culturally acceptable. For some, those paths are fine -- even great. But they leave some of us feeling disconnected from ourselves and what we really want. When that discomfort finally outweighs the fear of trying something new, we're ready to opt out. After going through this process many times, Cait Flanders found there is an incredible parallel between taking a different path in life and the psychological work it takes to summit a mountain -- especially when you decide to go solo. In *Adventures in Opting Out*, she offers a trail map to help you with both. As you'll see, reaching the first viewpoint can be easy -- and it offers a glimpse of what you're walking toward. Climbing to the summit for the full view is worth it. But in the space between those two peaks you will enter a world completely unknown to you, and that is the most difficult part of the path to navigate. With Flanders's guidance and advice, drawn from her own journey and

stories of others, you'll have all the encouragement and insight you'll need to take the path less traveled and create the life you want. Just step up to the trailhead and expect it to be an adventure.

*Society After Money* - Project Society After Money  
2019-04-18

Project Society After Money is an interdisciplinary project between commons theory, evolutionary political economy, media studies and sociology, that enter into a dialogue with one another in order to look at their specific theories and criticisms of money. Conceived as the beginning of a necessary interdisciplinary dialogue, the possibilities of post-monetary forms of organization and production are taken into account and examined. On one hand there is a lot of talk about 'digital revolution', 'mediatized society', 'networks', 'Industry 4.0'. On the other hand the present is described in terms of crisis: 'financial crisis', 'economic crisis', 'planetary boundaries'. At once there is the description of a media-

technological change along with massive social and ecological disruptions. *Society After Money* is based on the premise that there might be a conflict between digital media/digital technology and the medium of money and perhaps new digital possibilities that allow alternative forms of economy. It criticizes what is normally seen as self-evident and natural, namely that social coordination has to be done by the medium of money. We're left with a highly innovative collection of contributions that initiates a broader social discourse on the role of money in the global society of the 21st century.

*Two Feet, Four Paws* - Spud Talbot-Ponsonby 2001-05

The author, and her dog, Tess, walked the entire coastline of Britain to raise funds for homeless people. This is the story of their epic walk.

**The Last Wilderness** - Neil Ansell 2018-02-08

Neil Ansell's *THE LAST WILDERNESS* is a mesmerising book on nature

and solitude by a writer who has spent his lifetime taking solitary ventures into the wild. For any readers of the author's previous book, DEEP COUNTRY, Robert Macfarlane's THE OLD WAYS or William Atkins THE MOOR. Shortlisted for the 2018 Wainwright Golden Beer Book Prize Shortlisted for the 2018 Highland Book Prize 'Ansell has the rare skill of combining vividly the intimacy of detail and the astonishing grandeur of this North West coastline of Scotland. Through his keen eyes we look again at the familiar with a sense of wondrous revelation' Madeleine Bunting 'Beautiful...a testimony to reticent courage' Daily Mail The experience of being in nature alone is here set within the context of a series of walks that Neil Ansell takes into the most remote parts of Britain, the rough bounds in the Scottish Highlands. He illustrates the impact of being alone as part of nature, rather than outside it. As a counterpoint, Neil Ansell also

writes of the changes in the landscape, and how his hearing loss affects his relationship with nature as the calls of the birds he knows so well become silent to him.

**Better Off** - Eric Brende  
2009-10-13

What happens when a graduate of MIT, the bastion of technological advancement, and his bride move to a community so primitive in its technology that even Amish groups consider it antiquated? Eric Brende conceives a real-life experiment: to see if, in fact, all our cell phones, wide-screen TVs, and SUVs have made life easier and better -- or whether life would be preferable without them. By turns, the query narrows down to a single question: What is the least we need to achieve the most? With this in mind, the Brendes ditch their car, electric stove, refrigerator, running water, and everything else motorized or "hooked to the grid" and begin an eighteen-month trial run -- one that dramatically changes the way they live, and proves

entertaining and surprising to readers. Better OFF is a smart, often comedic, and always riveting book that also mingles scientific analysis with the human story, demonstrating how a world free of technological excess can shrink stress -- and waistlines -- and expand happiness, health, and leisure. Our notion that technophobes are backward gets turned on its head as the Brendes realize that the crucial technological decisions of their adopted Minimate community are made more soberly and deliberately than in the surrounding culture, and the result is greater -- not lesser -- mastery over the conditions of human existence.

Homesick - Catrina Davies  
2020-09-03

The story of a personal housing crisis that led to a discovery of the true value of home.

'Incredibly moving. To find peace and a sense of home after a life so profoundly affected by the housing crisis, is truly inspirational' Raynor Winn, bestselling author of *The Salt Path* Aged thirty-one,

Catrina Davies was renting a box-room in a house in Bristol, which she shared with four other adults and a child.

Working several jobs and never knowing if she could make the rent, she felt like she was breaking apart. Homesick for the landscape of her childhood, in the far west of Cornwall, Catrina decides to give up the box-room and face her demons. As a child, she saw her family and their security torn apart; now, she resolves to make a tiny, dilapidated shed a home of her own. With the freedom to write, surf and make music, Catrina rebuilds the shed and,

piece by piece, her own sense of self. On the border of civilisation and wilderness, between the woods and the sea, she discovers the true value of home, while trying to find her place in a fragile natural world. This is the story of a personal housing crisis and a country-wide one, grappling with class, economics, mental health and nature. It shows how housing can trap us or set us free, and what it means to feel at home.

The Rationing: A Novel - Charles Wheelan 2019-05-21  
Political backstabbing, rank hypocrisy, and dastardly deception reign in this delightfully entertaining political satire, sure to lift one's spirits far above the national stage. America is in trouble—at the mercy of a puzzling pathogen. That ordinarily wouldn't lead to catastrophe, thanks to modern medicine, but there's just one problem: the government supply of Dormigen, the silver bullet of pharmaceuticals, has been depleted just as demand begins to spike. Set in the near

future, The Rationing centers around a White House struggling to quell the crisis—and control the narrative. Working together, just barely, are a savvy but preoccupied president; a Speaker more interested in jockeying for position—and a potential presidential bid—than attending to the minutiae of disease control; a patriotic majority leader unable to differentiate a virus from a bacterium; a strategist with brilliant analytical abilities but abominable people skills; and, improbably, our narrator, a low-level scientist with the National Institutes of Health who happens to be the world's leading expert in lurking viruses. Little goes according to plan during the three weeks necessary to replenish the stocks of Dormigen. Some Americans will get the life-saving drug and others will not, and nations with their own supply soon offer aid—but for a price. China senses blood and a geopolitical victory, presenting a laundry list of demands that ranges from complete

domination of the South China Sea to additional parking spaces at the UN, while India claims it can save the day for the U.S.

**How I Lived a Year on Just a Pound a Day** - Kath Kelly 2008

*Working-Class*

*Environmentalism* - Karen Bell 2019-12-16

This book presents a timely perspective that puts working-class people at the forefront of achieving sustainability. Bell argues that environmentalism is a class issue, and confronts some current practice, policy and research that is preventing the attainment of sustainability and a healthy environment for all. She combines two of the biggest challenges facing humanity: that millions of

people around the world still do not have their social and environmental needs met (including healthy food, clean water, affordable energy, clean air); and that the earth's resources have been over-used or misused. Bell explores various solutions to these social and ecological crises and lays out an agenda for simultaneously achieving greater well-being, equality and sustainability. The result will be an invaluable resource for practitioners and policy-makers working to achieve environmental and social justice, as well as to students and scholars across social policy, sociology, human geography, and environmental studies.

**Everyone Brave is Forgiven** -

Chris Cleave 2016-05-03

The instant New York Times bestseller from Chris Cleave—the unforgettable novel about three lives entangled during World War II, told “with dazzling prose, sharp English wit, and compassion...a powerful portrait of war’s effects on those who fight and those left behind” (People, Book of the Week). London, 1939. The day war is declared, Mary North leaves finishing school unfinished, goes straight to the War Office, and signs up. Tom Shaw decides to ignore the war—until he learns his

roommate Alistair Heath has unexpectedly enlisted. Then the conflict can no longer be avoided. Young, bright, and brave, Mary is certain she'd be a marvelous spy. When she is—bewilderingly—made a teacher, she finds herself defying prejudice to protect the children her country would rather forget. Tom, meanwhile, finds that he will do anything for Mary. And when Mary and Alistair meet, it is love, as well as war, that will test them in ways they could not have imagined, entangling three lives in violence and passion, friendship, and deception, inexorably shaping their hopes and dreams. The three are drawn into a tragic love triangle and—as war escalates and bombs begin falling—further into a grim world of survival and desperation. Set in London during the years of 1939–1942, when citizens had slim hope of survival, much less victory; and on the strategic island of Malta, which was daily devastated by the Axis barrage, Everyone Brave is Forgiven

features little-known history and a perfect wartime love story inspired by the real-life love letters between Chris Cleave's grandparents. This dazzling novel dares us to understand that, against the great theater of world events, it is the intimate losses, the small battles, the daily human triumphs that change us most. **At Home in the Woods** - Bradford Angier 2015-05-15 One hundred years ago, Henry Thoreau wrote of the charms and joys of simple living in the woods, away from the hectic nuisances of our city civilization. His philosophy has become part of our American heritage, as sound today as the day he first set it down. But his advice on the simple life has seemed too rugged for later generations, brought up in cities, pampered with conveniences and scared of nature. Vena and Brad Angier were fed up with their city bound existence and longtime readers and admirers of Thoreau, they set out to see if his discoveries were valid today. This is the account of

two wilderness-loving tenderfeet, who headed for the tall timber on the banks of the Peace River, British Columbia. There near the trading post of Hudson Hope they found their Walden. How they made themselves 'At Home in the Woods,' stocked their cabin, met their interesting wilderness neighbors who helped them get settled and who saw them through their first winter makes honest and exciting reading. The city-bred Angiers found out that Thoreau was right when he wrote: "What people say you can not do, you try and find you can." Dude Making a Difference - Rob Greenfield 2015-12-14

**Drinking Molotov Cocktails with Gandhi** - Mark Boyle  
2015-10-12

More than ever, people are longing for deep and meaningful change. Another world is not only possible; it is essential. Yet despite our creative and determined efforts to attain social justice and ecological sustainability, our global crises continue to

deepen. In *Drinking Molotov Cocktails with Gandhi*, best-selling author Mark Boyle argues that our political and economic system has brought us to the brink of climate catastrophe, ransacking ecosystems and unraveling communities for the benefit of the few at the expense of the many. He makes a compelling case that we must "rewild" the political landscape, as history teaches us that positive social change has always been wrought by movements prepared to use any means available. The time has come for pacifists, revolutionaries, and freedom fighters to work together for the creation of a world worth sustaining. Eloquent, visionary, and beautifully written, this incendiary manifesto strikes at the heart of the world's crises and reframes our understanding of how to solve them, signaling a turning point in our journey towards an ecologically just society. The three R's of the climate change generation—reduce, reuse, and recycle—are long overdue for

an upgrade .Welcome to resist, revolt, rewild. Mark Boyle is the author of *The Moneyless Man* and *The Moneyless Manifesto*. He lived completely without money for three years, and is a director of the global sharing community [streetbank.com](http://streetbank.com).

**The Way Home** - Mark Boyle  
2019-04-04

It was 11pm when I checked my email for the last time and turned off my phone for what I hoped would be forever. No running water, no car, no electricity or any of the things it powers: the internet, phone, washing machine, radio or light bulb. Just a wooden cabin, on a smallholding, by the edge of a stand of spruce. *THE WAY HOME* is a modern-day Walden -- an honest and lyrical account of a remarkable life lived in nature without modern technology. Mark Boyle, author of *THE MONEYLESS MAN*, explores the hard won joys of building a home with his bare hands, learning to make fire, collecting water from the stream, foraging and fishing. What he finds is an elemental

life, one governed by the rhythms of the sun and seasons, where life and death dance in a primal landscape of blood, wood, muck, water, and fire - much the same life we have lived for most of our time on earth. Revisiting it brings a deep insight into what it means to be human at a time when the boundaries between man and machine are blurring.

**The Centrist Manifesto** - Charles Wheelan 2013-04-19  
A vision—and detailed road map to power—for a new party that will champion America’s rational center. From debt ceiling standoffs to single-digit Congress approval ratings, America’s political system has never been more polarized—or paralyzed—than it is today. As best-selling author and public policy expert Charles Wheelan writes, now is the time for a pragmatic Centrist party that will identify and embrace the best Democratic and Republican ideals, moving us forward on the most urgent issues for our nation. Wheelan—who not only lectures on public policy but

practices it as well (he ran unsuccessfully for Congress in 2009)—brings even more than his usual wit and clarity of vision to *The Centrist Manifesto*. He outlines a realistic ground game that could net at least five Centrist senators from New England, the Midwest, and elsewhere. With the power to deny a red or blue Senate majority, committed Centrists could take the first step toward giving voice and power to America's largest, and most rational, voting bloc: the center.

Timeless Simplicity - John Lane  
2001-01-01

This is a book about simplicity - not destitution, parsimoniousness or self-denial, but the restoration of wealth in the midst of an affluence in which we are starving the spirit. It is a book about the advantages of living a less cluttered, less stressful life than that which has become the norm in the overcrowded and manic-paced

consuming nations. It is a book about having less and enjoying more, enjoying time to do the work you love, enjoying time to spend with your family, enjoying time to pursue creative projects, enjoying time for good eating, enjoying time just to be.

*A Year in the Woods* - Colin Elford 2010-03-04

Colin Elford's *A Year in the Woods* is an enthralling journey into the heart of the English countryside - with a preamble by Craig Taylor. Colin Elford spends his days alone - alone but for the deer, the squirrels, the rabbits, the birds, and the many other creatures inhabiting the woods. From the crisp cold of January, through the promise of spring and the heat of summer, and then into damp autumn and the chill winds of winter, we accompany the forest-ranger as he goes about his work - stalking in the early morning darkness, putting an injured fallow buck out of its misery, watching stoats kill a hare, observing owls, and simply being a part of the outdoors. Colin Elford

immerses himself in the richly diverse and unique landscapes of Britain, existing in rhythm with natural environments. For fans of Robert Macfarlane's *Landmarks*, Helen Macdonald's *H is for Hawk* or James Rebanks' *A Shepherd's Life*, Colin's rare and uplifting journey will unveil the true nature and beauty of Britain's countryside. 'This is nature for real . . . Elford describes woodland wonders in short paragraphs of luminous intensity' *Daily Mail* 'A poetic insight in the world of hidden Nature' *Countryman* 'Stalking sharpens the senses and there is an almost hallucinatory clarity to Elford's writing' *Observer* 'Refreshingly unsentimental. Contains some wonderful descriptions and sentences which are so profound they demand a second reading' *Sunday Express* Colin Elford is a forest ranger on the Dorset/Wiltshire border. Craig Taylor is the author of *Return to Akenfield* and *One Million Tiny Plays About Britain* and the editor of the magazine *Five Dials*.

**Who Cares Wins** - Lily Cole  
2020-08-11

A rousing call to action, this book will leave you feeling hopeful that we can make a difference in the midst of an age of turmoil, destruction, and uncertainty. The climate crisis, mass extinctions, political polarization, extreme inequality--the world faces terrifying challenges that threaten to divide us, yet Lily Cole argues that it is up to us to actively choose optimism, collaborate, make changes, and define what is possible. Cole writes: "We are the ancestors of our future. The choices we make now and the actions we take today will define and transform future generations." Having collaborated with experts working on solutions to humanity's biggest challenges, Cole distills a vision for a sustainable and peaceful future. She explores divisive issues from fast fashion to fast food and from renewable energy to gender equality, and interviews some of today's greatest influencers: Sir Paul

McCartney (musician and activist), Elon Musk (CEO of SpaceX), Gail Bradbrook (cofounder of Extinction Rebellion), Farhana Yamin (climate change lawyer and activist), Emily Shuckburgh (climate scientist), Stella McCartney (sustainable fashion designer), Livia Firth (cofounder of Eco-Age), and Lisa Jackson (vice president of environment, policy and social initiatives at Apple, former Administrator of the EPA). The book also features a 32-page photo insert documenting Lily's experiences around the world, as well as the artists, activists, and others who have inspired her, and her own--as yet unpublished--photography.

*The Great Acceleration* -  
Robert Colvile 2016-05-17

The Great Acceleration is an energizing account from a brilliant new writer of how our society is speeding up--and why we should embrace it. In this revelatory study of modern living, Robert Colvile inspects the various ways in which the pace of life in our society is increasing and examines the

evolutionary science behind our rapidly accelerating need for change, as well as why it's unlikely we'll be able to slow down . . . or even want to. Exploring theories surrounding the effect of this speed on our minds and bodies, Colville reveals how, contrary to gloomier predictions, living in a faster age might be beneficial for us, both physically and mentally. In addition to the universe of social media, he examines the opportunities that faster communication and operation could bring to everything from music, film, and books to transportation, politics, and government. Comparing developments in cities and villages, advanced economies and underdeveloped countries, East and West, *The Great Acceleration* explains how the positives outnumber the negatives and, if this acceleration is truly inevitable, why we should rush to embrace it.

*My American Journey* - Colin L. Powell 2010-12-29

#1 NEW YORK TIMES

BESTSELLER • "A great

American success story . . . an endearing and well-written book."—The New York Times Book Review Colin Powell is the embodiment of the American dream. He was born in Harlem to immigrant parents from Jamaica. He knew the rough life of the streets. He overcame a barely average start at school. Then he joined the Army. The rest is history—Vietnam, the Pentagon, Panama, Desert Storm—but a history that until now has been known only on the surface. Here, for the first time, Colin Powell himself tells us how it happened, in a memoir distinguished by a heartfelt love of country and family, warm good humor, and a soldier's directness. *My American Journey* is the powerful story of a life well lived and well told. It is also a view from the mountaintop of the political landscape of America. At a time when Americans feel disenchanting with their leaders, General Powell's passionate views on family, personal responsibility, and, in his own words, "the

greatness of America and the opportunities it offers” inspire hope and present a blueprint

for the future. An utterly absorbing account, it is history with a vision.
