Statistical Power Analysis for the Behavioral Sciences - Jacob Cohen 2013-05-13

Statistical Power Analysis is a nontechnical guide to power analysis in research planning that provides users of applied statistics with the tools they need for more effective analysis. The Second Edition includes: * a chapter covering power analysis in set correlation and multivariate methods; * a chapter considering effect size, psychometric reliability, and the efficacy of "qualifying" dependent variables and; * expanded power and sample size tables for multiple regression/correlation.

The Second Reconstruction - Gary Donaldson 2000

This text traces the history of the civil rights movement in the years following World War II, to the present day. Issues discussed the Civil Rights Act of 1964, the Voting Rights of 1965, and the Northern Ireland ghetto's.

Nineteen Eighty-Four - George Orwell
2021-01-09

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is

ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Animal Farm - George Orwell 2021-02-02

All animals are equal but some animals are more equal than others. It's just an ordinary farm - until the animals revolt. They get rid of the irresponsible farmer. The other animals are sure that life is improving, but as systems are replaced and half-truths are retold, a new hierarchy emerges . . . Orwell's tale of propaganda, power and greed has never felt more pertinent. With an exciting new cover and inside illustrations by superstar Chris Mould.

Laudato Si' - Pope Francis 2020-10-06

Laudato Si' is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.

Equality, Freedom, and Democracy - Leonardo Morlino 2020

"In the intellectual life of a scholar, it is not infrequent for a research question to rattle around in the back of the mind for years. Then all of a sudden comes the realisation that the time is ripe to tackle the topic, and that an attempt has to be made at presenting, discussing and empirically analysed it. I will not go into the reasons why I think that this is now the right moment to address the question on the implementation of the two traditional democratic values, and their transformations over recent years, partly as a consequence of the economic crisis, and its prospective sustainability. Maybe in his Discorsi Machiavelli was only right when he recommends going back to values in times of crisis. There are, of course, other objective and

subjective reasons, and the former will emerge directly and indirectly in the first chapter"--.

Fifty Major Political Thinkers - Ian Adams 2004-03-01

Fifty Major Political Thinkers introduces the lives and ideas of some of the most influential figures in Western political thought, from ancient Greece to the present day. The entries provide a fascinating introduction to the major figures and schools of thought that have shaped contemporary politics, including: Aristotle Simone de Beauvoir Michel Foucault Mohandas Gandhi Jurgen Habermas Machiavelli Karl Marx Thomas Paine Jean-Jacques Rousseau Mary Wollstonecraft. Fully cross-referenced and including a glossary of theoretical terms, this wide-ranging and accessible book is essential reading for anyone with an interest in the evolution and history of contemporary political thought.

Democracy - Inter-parliamentary Union 1998 Principles to realization - Cherif Bassiouni

Where Do We Go from Here? - Kimberly L. Watkins 1955

As the characters go through their daily journeys, each one finds themselves often pondering the question: Where do we go from here? Some will realize the answer to that question, while others will be left to figure out which way to turn next. Interwoven in this novel are issues and lessons related to friendship, love, death, family secrets, betrayal, heartbreak and pure bliss. Set in the suburbs of Maryland and the Washington Metropolitan area, you'll take a ride through the characters' lives that will touch your heart and leave you wanting more.

50 Politics Classics - Tom Butler-Bowdon 2015-04-01

The latest bestseller in Tom Butler-Bowdon's award-winning 50 Classics series, which has already sold 100,000 copies in the US. "

Soft Power - Joseph S. Nye, Jr. 2009-04-28

Joseph Nye coined the term "soft power" in the late 1980s. It is now used frequently—and often incorrectly—by political leaders, editorial writers, and academics around the world. So what is soft power? Soft power lies in the ability to attract and persuade. Whereas hard power—the ability to coerce—grows out of a country's military or economic might, soft power arises from the attractiveness of a country's

culture, political ideals, and policies. Hard power remains crucial in a world of states trying to guard their independence and of non-state groups willing to turn to violence. It forms the core of the Bush administration's new national security strategy. But according to Nye, the neo-conservatives who advise the president are making a major miscalculation: They focus too heavily on using America's military power to force other nations to do our will, and they pay too little heed to our soft power. It is soft power that will help prevent terrorists from recruiting supporters from among the moderate majority. And it is soft power that will help us deal with critical global issues that require multilateral cooperation among states. That is why it is so essential that America better understands and applies our soft power. This book is our guide.

How Democracies Die - Steven Levitsky

2019-01-08

NEW YORK TIMES BESTSELLER •

“Comprehensive, enlightening, and terrifyingly timely.”—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* “What we

desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for the rest of the year, read *How Democracies Die*. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN

50 Success Classics - Tom Butler-Bowdon

2010-12-07

Discover the all-time classic books that have helped millions of people achieve success in their work and personal lives.

Stuff You Should Know - Josh Clark

2020-11-24

From the duo behind the massively successful and award-winning podcast *Stuff You Should Know* comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast *Stuff You Should Know* back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making *Stuff You Should Know* one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book

for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with *Stuff You Should Know*. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).

Black Like Me - John Howard Griffin
2006-04-01

This American classic has been corrected from the original manuscripts and indexed, featuring historic photographs and an extensive biographical afterword.

50 Economics Classics - Tom Butler-Bowdon
2017-05-30

Economics drives the modern world and shapes our lives, but few of us feel we have time to engage with the breadth of ideas in the subject. *50 Economics Classics* is the smart person's guide to two centuries of discussion of finance, capitalism and the global economy. From Adam Smith's *Wealth of Nations* to Thomas Piketty's bestseller *Capital in the Twenty-First Century*, here are the great reads, seminal ideas and famous texts clarified and illuminated for all.

50 Spiritual Classics - Tom Butler-Bowdon
2010-12-07

A kaleidoscope of inspiration that lets the reader delve into the ideas of many of our great spiritual thinkers.

The Chicago Freedom Movement - Mary Lou Finley
2016-04-22

Six months after the Selma to Montgomery marches and just weeks after the passage of the Voting Rights Act of 1965, a group from Martin Luther King Jr.'s staff arrived in Chicago, eager to apply his nonviolent approach to social change in a northern city. Once there, King's Southern Christian Leadership Conference (SCLC) joined the locally based Coordinating Council of Community Organizations (CCCO) to form the Chicago Freedom Movement. The open

housing demonstrations they organized eventually resulted in a controversial agreement with Mayor Richard J. Daley and other city leaders, the fallout of which has historically led some to conclude that the movement was largely ineffective. In this important volume, an eminent team of scholars and activists offer an alternative assessment of the Chicago Freedom Movement's impact on race relations and social justice, both in the city and across the nation. Building upon recent works, the contributors reexamine the movement and illuminate its lasting contributions in order to challenge conventional perceptions that have underestimated its impressive legacy.

The Road to Serfdom - F. A. Hayek
2014-08-13

A classic work in political philosophy, intellectual history and economics, *The Road to Serfdom* has inspired and infuriated politicians and scholars for half a century. Originally published in 1944, it was seen as heretical for its passionate warning against the dangers of state control over the means of production. For Hayek, the collectivist idea of empowering government with increasing economic control would lead not to a utopia but to the horrors of Nazi Germany and Fascist Italy. This new edition includes a foreword by series editor and leading Hayek scholar Bruce Caldwell explaining the book's origins and publishing history and assessing common misinterpretations of Hayek's thought. Caldwell has also standardized and corrected Hayek's references and added helpful new explanatory notes. Supplemented with an appendix of related materials and forewords to earlier editions by the likes of Milton Friedman, and Hayek himself, this new edition of *The Road to Serfdom* will be the definitive version of Friedrich Hayek's enduring masterwork.

50 Politics Classics - Tom Butler-Bowdon
2017-05-30

From Abraham Lincoln to Nelson Mandela, and from Aristotle to George Orwell, *50 POLITICS CLASSICS* distills the essence of the books, pamphlets, and speeches of the major leaders and great thinkers that drive real-world change. Spanning 2,500 years, left and right, thinkers and doers, Tom Butler-Bowdon's new book covers activists, war strategists, visionary leaders, economists, philosophers of freedom, feminists, conservatives and environmentalists,

right up to contemporary classics such as *The Spirit Level* and *No Logo*. Whether you consider yourself to be conservative, liberal, socialist, or Marxist, this book gives you greater understanding of the key ideas that matter in our politically charged times.

The Other America - Michael Harrington
1997-08

Presents the original report on poverty in America that led President Kennedy to initiate the federal poverty program

Never Too Late to be Great - Tom Butler-Bowdon
2014

Never Too Late To Be Great is about the power of thinking long. Drawing on wide research into 'lead time' and the 'ten-year rule', bestselling personal development author Tom Butler-Bowdon shows that, contrary to popular belief, people, companies, products and ideas invariably need time to realise their potential. At the age you are now, many famous and remarkable people were only just getting into their stride - and it's likely that you have more time than you think to achieve your goals. It's never too late to begin the journey of being or doing something remarkable. This book will show you how.

World Social Report 2020 - Department of Economic and Social Affairs
2020-02-14

This report examines the links between inequality and other major global trends (or megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation.

Democracy and Education - John Dewey 1916

John Dewey's *Democracy and Education: An Introduction to the Philosophy of Education* seeks to both critique and further the educational philosophies espoused by both Rousseau and Plato. Dewey found that Rousseau's ideas overemphasized the individual, whereas Plato's did the same with the society that the individual lived in. Dewey felt this distinction to be a false one, seeing the formation of our minds as a communal process, like Vygotsky did ...

Global Trends 2030 - Office of the Director of National Intelligence Council
2017-03-11

This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical

variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations.

What do great enterprises have in common? What sort of person starts them? A single idea can help you find the next big thing, but it takes time to trawl through hundreds of business books to find inspiration. With insightful commentaries on the landmark writings of old and new, 50 Business Classics presents the great entrepreneur stories, the best management thinking and the proven ideas on strategy, innovation and marketing - in one volume. 50 Business Classics presents the key ideas from classic texts such as My Years with General Motors and Michael Gerber's The E-Myth Revisited to contemporary business lessons from the rise of tech giants like Google, Apple and Amazon. It contains revealing biographies of luminaries like Steve Jobs and Warren Buffett, as well as lesser-known stories including creation of publishing giant Penguin and Chinese behemoth Alibaba. Here you'll find the texts and ideas that matter in:

· Entrepreneurship · Leadership · Management · Strategy · Business history · Personal development · Technology and innovation Summarising the smartest thinking for today's professional success, 50 Business Classics provides inspiration and insights for entrepreneurs, executives and students of business and management alike.

National Security, Leaks and Freedom of the Press - Geoffrey R. Stone 2021-03-04

Written by a group of the nation's leading constitutional scholars, a deeply informed, thoughtful, and often surprising examination of who has First Amendment rights to disclose, to obtain, or to publish classified information relating to the national security of the United

States. One of the most vexing and perennial questions facing any democracy is how to balance the government's legitimate need to conduct its operations-especially those related to protecting the national security-in secret, with the public's right and responsibility to know what its government is doing. There is no easy answer to this issue, and different nations embrace different solutions. In the United States, at the constitutional level, the answer begins exactly half a century ago with the Supreme Court's landmark 1971 decision in the Pentagon Papers case. The final decision, though, left many important questions unresolved. Moreover, the issue of leaks and secrecy has cropped up repeatedly since, most recently in the Edward Snowden and Chelsea Manning cases. In *National Security, Leaks and Freedom of the Press*, two of America's leading First Amendment scholars, Lee C. Bollinger and Geoffrey R. Stone, have gathered a group of the nation's leading constitutional scholars-including John Brennan, Eric Holder, Cass R. Sunstein, and Michael Morell, among many others-to delve into important dimensions of the current system, to explain how we should think about them, and to offer as many solutions as possible.

The Politics - Aristotle 1981-09-17

Twenty-three centuries after its compilation, 'The Politics' still has much to contribute to this central question of political science. Aristotle's thorough and carefully argued analysis is based on a study of over 150 city constitutions, covering a huge range of political issues in order to establish which types of constitution are best - both ideally and in particular circumstances - and how they may be maintained. Aristotle's opinions form an essential background to the thinking of philosophers such as Thomas Aquinas, Machiavelli and Jean Bodin and both his premises and arguments raise questions that are as relevant to modern society as they were to the ancient world.

50 Psychology Classics - Tom Butler-Bowdon 2010-12-07

Explore the key wisdom and figures of psychology's development over 50 books, hundreds of ideas, and a century of time.

50 Philosophy Classics - Tom Butler-Bowdon 2017-05-30

For over 2000 years, philosophy has been our

best guide to the experience of being human, and the true nature of reality. From Aristotle, Plato, Epicurus, Confucius, Cicero and Heraclitus in ancient times to 17th century rationalists Descartes, Leibniz and Spinoza, from 20th-century greats Jean-Paul Sartre, Jean Baudrillard and Simone de Beauvoir to contemporary thinkers Michael Sandel, Peter Singer and Slavoj Zizek, *50 Philosophy Classics* explores key writings that have shaped the discipline and had an impact on the real world. Philosophy can no longer be confined to academia, and *50 Philosophy Classics* shows how powerful it can be as a tool for opening our minds and helping us think. Whether you are fascinated or daunted by the big questions of how to think, how to be, how to act and how to see, this is the perfect introduction to some of humanity's greatest minds and their landmark books.

Running for Freedom - Steven F. Lawson 2014-09-05

Running for Freedom, Fourth Edition, updates historian Steven Lawson's classic volume detailing the history of African-American civil rights and black politics from the beginning of World War II to the present day. Offers comprehensive coverage of the African-American struggle for civil rights in the U.S. from 1941 to 2014 Integrates events relating to America's civil rights story at both the local and national levels Features new material on Obama's first term in office and the first year of his second term Includes addition of such timely issues as the Trayvon Martin case, the March on Washington 50th anniversary, state voter suppression efforts, and Supreme Court ruling on Voting Rights Act

The Road to Serfdom - 2015-12-26

"Over Two Million Copies Sold" *The Road to Serfdom* By Friedrich A. Hayek Condensed Edition *The Road to Serfdom* is a book written by the Austrian-born economist and philosopher Friedrich von Hayek (1899-1992) between 1940-1943, in which he "[warns] of the danger of tyranny that inevitably results from government control of economic decision-making through central planning." He further argues that the abandonment of individualism and classical liberalism inevitably leads to a loss of freedom, the creation of an oppressive society, the

tyranny of a dictator, and the serfdom of the individual. Significantly, Hayek challenged the general view among British academics that fascism (and National Socialism) was a capitalist reaction against socialism. He argued that fascism, National Socialism and socialism had common roots in central economic planning and empowering the state over the individual. Since its publication in 1944, *The Road to Serfdom* has been an influential and popular exposition of market libertarianism. It has sold over two million copies. *The Road to Serfdom* was to be the popular edition of the second volume of Hayek's treatise entitled "The Abuse and Decline of Reason," and the title was inspired by the writings of the 19th century French classical liberal thinker Alexis de Tocqueville on the "road to servitude." The book was first published in Britain by Routledge in March 1944, during World War II, and was quite popular, leading Hayek to call it "that unobtainable book," also due in part to wartime paper rationing. It was published in the United States by the University of Chicago Press in September 1944 and achieved great popularity. At the arrangement of editor Max Eastman, the American magazine *Reader's Digest* published an abridged version in April 1945, enabling *The Road to Serfdom* to reach a wider popular audience beyond academics. *The Road to Serfdom* has had a significant impact on twentieth-century conservative and libertarian economic and political discourse, and is often cited today by commentators.

These Truths: A History of the United States

- Jill Lepore 2018-09-18

New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues,

because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? *These Truths* tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," *These Truths* observes. "It can't be shirked. There's nothing for it but to get to know it."

[50 Philosophy Classics](#) - Tom Butler-Bowdon 2022-08-02

For over 2000 years, philosophy has been our best guide to the experience of being human, and the true nature of reality. From Aristotle, Plato, Epicurus, Confucius, Cicero and Heraclitus in ancient times to 17th century rationalists Descartes, Leibniz and Spinoza, from 20th-century greats Jean-Paul Sartre, Jean Baudrillard and Simone de Beauvoir to contemporary thinkers Michael Sandel, Peter Singer and Slavoj Žižek, *50 Philosophy Classics* explores key writings that have shaped the discipline and had an impact on the real world. This is the thinking person's guide to a uniquely

powerful tool for opening our minds and helping us view the world. It synthesises the 50 greatest books ever written, distilling hundreds of ideas from across the centuries with insightful commentary, key quotes and biographical information on the authors. The revised edition will:

- include 7 new contemporary or timely classics such as Judith Butler's *Gender Trouble*, Michael Sandel's *The Tyranny of Merit*, Isaiah Berlin's *The Hedgehog and the Fox* and Mary Midgely's *Myths We Live By*.
- include a reader code to access a free pack of downloadable bonus material
- have a revised introduction to reflect on the current relevance of philosophy today with topical themes to have emerged in the 9 years since the last edition was written.
- have some of the less relevant titles removed

"50 Philosophy Classics is an impressively wide-ranging compendium of nutshell clarity. It strikes just the right balance between contextual analysis, and breezy illustrative anecdote." Dr Phil Oliver, Department of Philosophy, Middle Tennessee State University, USA

Fifty Million Rising - Saadia Zahidi 2018-01-30

There is a quiet revolution that is radically reshaping the Muslim world: 50 million women have entered the workforce and are upending their countries' economies and societies.

Longlisted for the FT & McKinsey Business Book of the Year Award Across the Muslim world, ever greater numbers of women are going to work. In the span of just over a decade, millions have joined the workforce, giving them more earning and purchasing power and greater autonomy. In *Fifty Million Rising*, award-winning economist Saadia Zahidi illuminates this discreet but momentous revolution through the stories of the remarkable women who are at the forefront of this shift--a McDonald's worker in Pakistan who has climbed the ranks to manager; the founder of an online modest fashion startup in Indonesia; a widow in Cairo who runs a catering business with her daughter, against her son's wishes; and an executive in a Saudi corporation who is altering the culture of her workplace; among many others. These women are challenging familial and social conventions, as well as compelling businesses to cater to women as both workers and consumers. More importantly, they are gaining the economic power that will upend entrenched cultural norms, re-shape how women are viewed in the Muslim world and elsewhere, and change the mindset of the next generation. Inspiring and deeply reported, *Fifty Million Rising* is a uniquely insightful portrait of a seismic shift with global significance, as Muslim women worldwide claim a seat at the table.
