**An Introduction to
Executive Compensation** -
Steven Balsam 2002-04-13
General readers have no idea
why people should care about
what executives are paid and
why they are paid the way they
are. That's the reason that The
Wall Street Journal, Fortune,
Forbes, and other popular and
practitioner publications have
regular coverage on them. This
book not only proposes a
reason--executives need
incentives in order to maximize
firm value (economists call this
"agency theory")--it also
describes the nature and
design of executive
compensation practices. Those
incentives can take the form of
benefits (salary, stock options),
perquisites (reflecting the
status of the executive within
the organizational culture. This
book is important because it
takes the elements of an
executive compensation
package apart, analyzing them
in the contexts of both
economic theory and corporate

practice and then explains how, under varying conditions, one might construct a compensation package that optimizes an executive's and a corporation's performance. Key Features * Presents an objective analysis of current executive compensation practices * Comprehensively reviews of academic literature and extant practice * Explains and illustrates the various components of the compensation package * Discusses the incentive, financial reporting, tax, political, equity, and firm value effects of those components

Liberty in Mexico - José Antonio Aguilar Rivera 2012

Liberty in Mexico presents sixty-four essays and writings on liberty and liberalism, from the early republican period to the late twentieth century, from a variety of authors. The texts in this edition will refute commonly held notions that the liberal project in Latin America had no indigenous roots. The institutions of modern representative government and free-market capitalism were

very much part of the founding of Mexico. Offering direct access to primary sources that are not available to readers in English, this volume is a key primer to those interested in Latin American history, politics, and political theory. José Antonio Aguilar Rivera is a Professor of Political Studies in the Division of Policy Studies department at the Centro de Investigación y Docencia Económicas, A. C. (CIDE) in Mexico. Please note: This title is available as an ebook for purchase on Amazon, Barnes and Noble, and iTunes.

The United States and Mexico - Jorge I. Domínguez 2009-05-15

The ideal introduction to U.S.-Mexican relations, this book moves from the conflicts all through the nineteenth century up to the current democratic elections in Mexico.

Barron's Finance & Investment Handbook - John Downes 1995

Previous editions of this comprehensive reference book have been called "required reading for students, investors, and writers" by "USA Today," and "a teeming reservoir of information" by the "Oakland Tribune." Updated to reflect the 2006 investment climate, the new edition of "Barron's Finance and Investment Handbook" presents a financial dictionary of more than 5,000 terms, an analysis of many current investment opportunities, guidelines for non-experts on what to look for when reading corporate reports and financial news sources, an up-to-date directory of hundreds of publicly traded corporations in the United States and Canada, and a directory listing the names and addresses of brokerage houses, mutual funds families, banks, federal and state regulators, and other major financial institutions.

Here in one big volume is indispensable information for planning and maintaining a healthy investment portfolio. Official Summary of Security Transactions and Holdings Reported to the Securities and Exchange Commission Under the Securities Exchange Act of 1934 and the Public Utility Holding Company Act of 1935 - United States. Securities and Exchange Commission 1997

SEC Docket - United States. Securities and Exchange Commission 1996
