Elasticity and Toughness - Feng Wei 2021-12-31

This book examines minban teacher policies and their implementation in China between 1949 and 2000, when rural areas were in severe shortage of qualified teachers. During this period of time, minban teachers made great contributions to education, doing the same work as state-employed school teachers while receiving much lower salaries due to non-official status. With solid fieldwork on oral history of minban teachers and policy actors and deep examination of a wealth of policy documents in private and governmental archives, the author records the life history of minban teachers, the process of minban teacher policies, and the interaction between policies and individual strategies in M county (pseudonym), located in northern Jiangsu province of China. The book reveals many interesting and sometimes surprising findings about the characteristics of educational policy implementation in China. While China's minban teacher policies have come to an end, rural education continues to be a major concern of policymakers and researchers alike. The book is an important piece of scholarship for the readers interested in rural education in China, and in how state, society, and culture interact to influence teacher policies and management in the Chinese context.

PISA Take the Test Sample Questions from OECD's PISA Assessments - OECD 2009-02-02

Governance for Harmony in Asia and Beyond - Julia Tao 2009-12-18

Harmony has become a major challenge for modern governance in the twenty-first century because of the multi-religious, multi-racial and multi-ethnic character of our increasingly globalized societies. Governments all over the world are facing growing pressure to integrate the many diverse elements and subcultures which make up modern pluralistic societies. This book examines the idea of harmony, and its place in politics and governance, both in theory and practice, in Asia, the West and elsewhere. It explores and analyses the meanings, mechanisms, dimensions and methodologies of harmony as a normative political ideal in both Western and Asian philosophical traditions. The book argues that in Western political thought - which sees politics as primarily concerned with resolving social conflicts and protecting individual rights - the concept of harmony has often been neglected. In contrast, since earliest times harmony or 'he' has been a profound theme in Confucian thought, and current leaders of many East Asian governments, and

the Chinese government, have explicitly declared that the realisation of a harmonious society is their aim. The book also assesses how harmony is pursued, jeopardized or deformed in the real world of politics, based upon empirical analysis of a variety of different cultural, social and political contexts, including: China, Hong Kong, Singapore, Malaysia, Singapore, Vietnam, Denmark, Latin America and the Scandinavian countries. It shows how harmony as an organizing concept can help to promote new thinking in governance, and overcome problems of modern-day governance like distrust, adversarial conflicts, hyper-individualism, coercive state intervention, and free-market alienation. It also discusses the potential problems posed by the pursuit of harmony, in particular in the grave threat of totalitarianism, and considers how these risks could best be mitigated.

CTET Success Master Maths and Science Paper 2 for Class 6 to 8 for 2021 Exams - Arihant Experts 2021-05-26

1.Success Master Study Guides focus in the preparation of CTET teaching Exam 2.This book deals with CTET Mathematics and Science Paper - 2 (Classes 6-8) 3.Divided into 5 main Sections completely prepared on the latest exam pattern. 4.Provides Previous years' Solved Papers, 2 Practice Sets and more than 3000 MCQs are given for thorough practice.
