LeaderShift 2020 - Dr. Brian P. Chinni 2021-02-24

in·san·i·ty /in'sanədē/ noun • doing the same thing you have always done, but expecting, wanting, or needing completely different results (Chinni et al., 2019) The modern age demands a modern education. We cannot

continue to act in the same way and expect different results. It does, in fact, take a village. Educators cannot do this alone. We must come to the realization that ours is a societal issue, challenge and responsibility, not simply that which belongs to only those who educate. Therefore, we must engage all members of both our larger and local educational communities in our mission to realize our shared vision of modern schooling—one that we all know will best serve to prepare every student for these most extraordinary and uncertain times. The time is now. LeaderShift 2020: Reinventing Our Schools for Extraordinary and Uncertain Times will inform and inspire using authentic anecdotes and an embedded collection of practical tools and resources to guide you and your educational community as you shift the paradigm of teaching, learning, and assessment in your schools. LeaderShift 2020 lays out practical steps for educational communities to best position our students for lasting success in an unprecedented world. It provides a comprehensive strategic visioning and planning process that will require you and your community to understand the essential attributes of the exemplary modern learning organization, use specific protocol to engage stakeholders in a collaborative decision-making and goal development process, and formulate and execute a shared “2020 Vision” for your schools.

Fire Department Strategic Planning, 3rd Edition - Mark Wallace 2021-01-18

From the author: This 3rd edition is about organized common sense in the fire service. Section One provides support to fire departments that already have a strategic plan and just need to update and revise their existing plan. I have found over my 30 years of consulting with fire department's that they want to accomplish their next iteration of their strategic plan as rapidly as possible. Section Two provides a detailed “How-to” guide to help a fire department create its first strategic plan. Section Two is divided into four parts: (1) Understanding the Department, (2) Understanding the Situation, (3) Understanding the Strategic Issues Facing the Department, and (4) Creating Organizational Change. A new chapter (Chapter 20) provides assistance to those

departments having challenges with their strategic plan and obtaining the desired outcomes/results. It adds a new troubleshooting process for those departments having challenges to create an effective and successful strategic plan. The book is designed to be effective as a manual to develop an individual fire department's strategic plan as well as a textbook for use in upper division college/university courses or as a text for post-graduate courses.
