Innovations in Maternal Health - Jay Satia 2013-09-30

Innovations in Maternal Health presents a compilation of twenty-three innovations from the area of Maternal and Newborn Health. These innovations have been written in the case-study style for teaching, which will be beneficial for capacity building initiatives for health-care professionals. These descriptive cases cover innovative programmes, initiatives and technologies implemented in India. Each case is complemented by a documentary film provided in the accompanying DVD. The book takes us on a boat ride through the rarely travelled riverine areas of the Majuli Islands of Assam and the Sunderbans in West Bengal to the state of Tamil Nadu, which is known for its constant endeavours to improve its health-care system, considered one of the best

in the country. Technological innovations to address hypothermia in newborns and buy time in cases of postpartum haemorrhage in low-resource settings have been documented in detail. The book hopes to encourage readers to analytically view the need for innovations, critically analyse their success and challenges and the need for information sharing for better utilization of existing knowledge.

Planning Guide for Maintaining School Facilities - Tom Szuba 2003

This title is no longer available in print. However, please visit the NCES website at <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2003347> to view an electronic version of the text. As America's school buildings age, we face the growing challenge of maintaining the nation's education facilities at a level that enables our teachers to meet the needs of the 21st century learners. This tool has been developed to help readers better understand why and how to develop, implement, and evaluate a facilities maintenance plan. It focuses on: maintenance as a vital task in the responsible management of an education organization, the needs of an education audience, strategies and procedures for planning, implementing, and evaluating maintenance programs, a process to be followed, rather than a canned set of "one size fits all" solutions, and recommendations based on "best practices", rather than mandates. The document offers recommendations on the following important issues, which serve as chapter headings: Introduction to School Facilities Maintenance Planning Planning for School Facilities Maintenance Facilities Audits (Knowing What You Have) Providing a Safe Environment for Learning Maintaining School Facilities and Grounds Effectively Managing Staff and Contractors Evaluating Facilities Maintenance Efforts
