*Voices from the Classroom: A Celebration of Learning* - Vana Chiou 2021  
Voices from the Classroom illustrates that teachers have a leading voice in the policies that impact their students and the profession of teaching. The aim is to provide a rich and broad view of the impact of inquiry in the classrooms, from primary to higher education, and to provide a window into the perspective of teachers. Voices from the Classroom allows us to advance this mission by identifying and then turning educators' ideas into action. The publication includes chapters on issues ranging from dyslexic students' geospatial abilities to teachers' differential behaviours related, student characteristics and the experiences of refugees with bullying in the educational space. All the

contributions published in this book emerged from real classrooms: our teachers and researchers conducted their research by drawing on their experience as educators. We believe that these insights into everyday classrooms, and the issues affecting them, are crucial to making teaching and learning better. We hope they can help drive real, positive change for students and teachers.

*The Education Digest* - 1971

The editorial aim ... is to present ... condensations of ... articles taken from the leading professional and lay publications.

CCE Awareness Social Sciences For Class 6 - Suman Gupta

Learning objectives clearly lay down the expected outcome of each chapter. Emphasis is given on understanding concepts using very simple explanations and language. Multiple Choice Questions (MCQs) are included in exercises as recommended in CCE.

Constructing History 11-19 - Hilary Cooper 2009-07-09

This book describes and exemplifies strategies for teaching history across the 11-19 age range in rigorous and enjoyable ways. It illustrates active learning approaches embedded in pupil-led enquiries, through detailed case studies which involve students in planning and carrying out historical enquiries, creating accounts and presenting them to audiences, in ways that develop increasingly sophisticated historical thinking. The case studies took place in a number of different localities and show how practising teachers worked with pupils during each year from Y6/7 to Y 13 to initiate, plan and implement enquiries and to present their findings in a variety of ways. Each case study is a practical example which teachers can use as a model and modify for their own contexts, showing how independent learning linked to group collaboration and peer assessment can enhance learning. Social constructivist theories of learning applied to historical thinking underpin the book, with particular emphasis on links between personalised and collaborative learning and e-learning.
