Gideon's Promise - Jonathan Rapping 2020-08-18

A criminal defense attorney “tugs at both the heartstrings and our consciences as he challenges America’s true commitment to justice” (Stacey Abrams), offering a blueprint for how public defense programs should work to end mass incarceration Combining wisdom drawn from over a dozen years as a public defender and cutting-edge research in the fields of organizational and cultural psychology, Jonathan Rapping proposes a radical cultural shift to a “fiercely client-based ethos” driven by values-based recruitment training, awakening defenders to their role in upholding an unjust status quo, and a renewed pride in the essential role of moral lawyering in a democratic society. Public defenders represent over 80% of those who interact with the court system, a disproportionate number of whom are poor, non-white citizens who rely on them to navigate the law on their behalf. More often than not, even the most well-meaning of those defenders are over-worked, under-funded, and incentivized to put the interests of judges and politicians above those of their clients in a culture that beats the passion out of talented, driven advocates, and has led to an embarrassingly low standard of

justice for those who depend on the promises of Gideon v. Wainwright. Through the story of founding Gideon’s Promise and anecdotes of his time as a defender and teacher, Rapping reanimates the possibility of public defenders serving as a radical bulwark against government oppression and a megaphone to amplify the voices of those they serve.

White Ivy - Susie Yang 2020-11-03

“A truly addictive read” (Glamour) about how a young woman’s crush on a privileged former classmate becomes a story of love, lies, and dark obsession, offering stark insights into the immigrant experience, as it hurtles to its electrifying ending in this “twisty, unputdownable, psychological thriller” (People). Ivy Lin is a thief and a liar—but you’d never know it by looking at her. Raised outside of Boston, Ivy’s immigrant grandmother relies on Ivy’s mild appearance for cover as she teaches her granddaughter how to pilfer items from yard sales and second-hand shops. Thieving allows Ivy to accumulate the trappings of a suburban teen—and, most importantly, to attract the attention of Gideon Speyer, the golden boy of a wealthy political family. But when Ivy’s mother discovers her trespasses, punishment is swift and Ivy is sent to China, and her dream instantly evaporates. Years later, Ivy has grown into a poised yet restless young woman, haunted by her conflicting feelings about her upbringing

and her family. Back in Boston, when Ivy bumps into Sylvia Speyer, Gideon's sister, a reconnection with Gideon seems not only inevitable—it feels like fate. Slowly, Ivy sinks her claws into Gideon and the entire Speyer clan by attending fancy dinners, and weekend getaways to the cape. But just as Ivy is about to have everything she's ever wanted, a ghost from her past resurfaces, threatening the nearly perfect life she's worked so hard to build. Filled with surprising twists and a nuanced exploration of class and race, *White Ivy* is a "highly entertaining," (The Washington Post) "propulsive debut" (San Francisco Chronicle) that offers a glimpse into the dark side of a woman who yearns for success at any cost.

The Age of the Strongman - Gideon Rachman 2022-04-19

From Putin, Trump, and Bolsonaro to Erdoğan, Orbán, and Xi, an intimate look at the rise of strongman leaders around the world. The first truly global treatment of the new nationalism, underpinned by an exceptional level of access to its key actors, from the award-winning journalist and author of *Easternization*. This is the most urgent political story of our time: authoritarian leaders have become a central feature of global politics. Since 2000, self-styled strongmen have risen to power in capitals as diverse as Moscow, Beijing, Delhi, Brasilia, Budapest, Ankara, Riyadh, and Washington. These leaders are nationalists and social conservatives, with little tolerance for minorities, dissent, or the interests of foreigners. At home, they claim to be standing up for ordinary people against globalist elites; abroad, they posture as the embodiments of their nations. And everywhere they go, they encourage a cult of personality. What's more, these leaders are not just operating in authoritarian political systems but have begun to emerge in the heartlands of liberal democracy.

Gideon Rachman has been in the same room with most of these strongmen and reported from their countries over a long journalistic career. While others have tried to understand their rise individually, Rachman pays full attention to the widespread phenomenon and uncovers the complex and often surprising interaction among these leaders. In the process, he identifies the common themes in our local nightmares, finding global coherence in the chaos and offering a bold new paradigm for navigating our world. Behavioral Finance: The Second Generation - Meir Statman 2019-12-02

Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of

people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.
