A Torrent of Terror - Aboh, Rome 2015-03-18

Rome Aboh's poetry unmistakably enwraps the condition of the politically and socially cannibalised segment of his society; and the beauty of the verse radiates from his facility with language as the stylist and linguist. The section "patriotism" with such poems as "hour of truth" aptly brings out the socially obligatory role of the poets whose mission goes beyond versifying and sharing their personal fantasies and urges. Similarly the poem "letter to the mp" echoes the agonies of the common masses who feel deceived by the ruling elite in their so-called democratic nations.

Terror - Toby Martinez de las Rivas 2014-06-12

In *Terror*, Toby Martinez de las Rivas leads us on a high-wire act in pursuit of a new kind of communication. By turns political, social, theological, historical and personal, the poems in this debut collection work closely with the reader, asking questions of us and encouraging us never to settle for inadequate answers. Toby Martinez de las Rivas writes with a flare and a rigour associated with some of his guiding lights: Christopher Smart, Gerard Manley Hopkins, Barry MacSweeney, Geoffrey Hill. Seeking a language which might console us, a language with which we might commune in our most intimate and terrifying moments - be these in love, in doubt, in a prayer for an unborn child, or an exploration of the kind of world we might wish to live in - *Terror* is a thrilling and powerful debut.

Passage to Juneau - Jonathan Raban 2011-06-22

With the same rigorous observation (natural and social), invigorating stylishness, and encyclopedic learning that he brought to his National Book Award-winning *Bad Land*, Jonathan Raban conducts readers along the Inside Passage from Seattle to Juneau. The physical distance is 1,000 miles of difficult-and often treacherous-water, which Raban navigates solo in a 35-foot sailboat. But *Passage to Juneau* also traverses a gulf of centuries and cultures: the immeasurable divide between the Northwest's Indians and its first European explorers-- between its embattled fishermen and loggers and its pampered new class. Along the way, Raban offers captivating discourses on art, philosophy, and navigation and an unsparing narrative of personal loss.

A Philosophical Enquiry Into the Sublime and Beautiful - Edmund Burke 2009-06-02

Edited with an introduction and notes by James T. Boulton. 'One of the greatest essays ever written on art.' - The Guardian Edmund Burke's *A Philosophical Enquiry into the Origin of our Ideas of the Sublime and Beautiful* is one of the most important works of aesthetics ever published. Whilst many writers have taken up their pen to write of "the beautiful", Burke's subject here was the quality he uniquely distinguished as "the sublime"—an all-consuming force beyond beauty that compelled terror as much as rapture in all who beheld it. It was an analysis that would go on to inspire some of the leading thinkers of the age, including Immanuel Kant and Denis Diderot. The Routledge Classics edition presents the authoritative text of the first critical edition of Burke's essay ever published, including a substantial critical and historical commentary. Edmund Burke (1729-1797). A politician, philosopher and orator, Burke lived during a turbulent time in world history, which saw revolutions in America and France that inspired his most famous work, *Reflections on the Revolution in France*.

Metamorphosis - Russell M. Lawson 2019-09-10

This book is the culmination of many years spent addressing two questions: Why did Christ come when He did? And what happened as a result? The first question has exercised the minds of countless theologians, philosophers, and historians, those who assume through faith that the Son of God could determine whence

He appeared among humans. Why during the Roman Empire? Why during the reign of Herod the Great or his successor Herod Archelaus? Why not centuries earlier, or centuries later? Why at this particular time, two thousand years ago? Such answers as have been proposed—that He arrived as the Messiah to fulfill God's promise to the Jews; that He arrived when the Pax Romana provided the stability and continuity necessary for the spread of Christianity throughout the Mediterranean region; that He arrived when the humans needed Him most—are sufficient, if not wholly satisfactory, answers to the question. One way to approach the question, Why did Christ come when He did?, is to ask the corollary, And what happened as a result?, which provides a host of new possibilities. He came to establish the Church; He came to replace the Old Testament Law, the old covenant, with a new covenant; He came to inaugurate the Great Commission, to spread His Word throughout the world; He came to save the world; He inaugurated the greatest revolution in thought, culture, and society, the world has ever seen before and since. Which one is true? What is the answer?

Scar and Flower - Lee Herrick 2018-10-31

These poems, alternately gritty and transcendent, find the spirit in our stark, hardscrabble lives."This is an incredible, luminous and most serious investigation, of being, of human suffering, of war and peace - of the factories of violence and the notebook of enlightenments. We deepen into spirit and lives lost. Lee is concerned with the turning of beauty, the intimacy of death and the boundlessness of small moments, 'the broken body of a tiny bird, fragments that can change a life. Glitterings of light, planetary systems, electric skies available and unavailable. He is the form rider' of hope. A stellar project, here. Rare and gifted, a timely arrival. Life-deep brilliance."--Juan Felipe Herrera, Poet Laureate of the United States

2015-2017"Lee Herrick is a poet of the ecstatic. In this collection, he reminds us that the body has its own light-filled astronomy, that the body is also a torrent of terror and desire. Here are furious elegies about the way America is on fire with its bombs and guns and false prayers. Herrick gathers stray echoes, a myriad of birds, the motherless ocean, and much more into A stellar project, here. Rare and gifted, a timely arrival. Life-deep brilliance. And yet, so much love, because grief is a coin spent in the currency of love. This poet is an unapologetic patriot in the vast country of love, a place of abundance in the aching language of both scars and flowers."--Sun Yung Shin, author of UNBEARABLE SPLENDORLee Herrick's visionary, ocean-hearted third collection stares down the forces sweeping through North America-and dares to listen to the howl. Scar and Flower crosses continents and oceans, translates moonlight, and reckons with what it means to be alive, and lost, and in love with fire-light at the beginning of the 21st century. Herrick's singular voice and vision propels us forward-sound over sound, rose over rose-as if to say: motion is resistance, and listening, the one true act of grace. A mighty, tender, and fearless book from a poet at the height of his powers."--Brynn Saito, author of POWER MADE US SWOON

Rider Haggard is sometimes considered the first lost-world narrative. Haggard's novel shaped the form and influenced later lost-world books, including Kipling's The Man Who Would Be King, Arthur Conan Doyle's The Lost World, Burroughs' The Land That Time Forgot, A. Merritt's The Moon Pool, and H. P. Lovecraft's At the Mountains of Madness. James Hilton's Lost Horizon used the genre as a takeoff for popular philosophy and social comment and it introduced the name Shangri-La, a meme for the idealization of the lost world as a paradise.

Active Intolerance - Perry Zurn 2016-01-26

This book is an interdisciplinary collection of essays on Le Groupe d'information sur les prisons (The Prisons Information Group, or GIP). The GIP was a radical activist group, extant between 1970 and 1973, in which Michel Foucault was heavily involved. It aimed to facilitate the circulation of information about living conditions in French prisons and, over time, it catalyzed several revolts and instigated minor reforms. In Foucault's words, the GIP sought to identify what was 'intolerable' about the prison system and then to produce 'an active intolerance' of that same intolerable reality. To do this, the GIP 'gave prisoners the floor,' so as to hear from them about what to resist and how. The essays collected here explore the GIP's resources both for Foucault studies and for prison activism today.

Reign of Terror - Spencer Ackerman 2021-08-10

A New York Times Critics' Top Book of 2021 "An impressive combination of diligence and verve, deploying Ackerman's deep stores of knowledge as a national security journalist to full effect. The result is a narrative of the last 20 years that is upsetting, discerning and brilliantly argued." —The New York Times "One of the most illuminating books to come out of the Trump era." —New York Magazine An examination of the profound impact that the War on Terror had in pushing American politics and society in an authoritarian direction For an entire generation, at home and abroad, the United States has waged an endless conflict known as the War on Terror. In addition to multiple ground wars, the era pioneered drone strikes and industrial-scale digital surveillance; weakened the rule of law through indefinite detentions; sanctioned torture; and manipulated the truth about it all. These conflicts have yielded neither peace nor victory, but they have transformed America. What began as the persecution of Muslims and immigrants has become a

normalized feature of American politics and national security, expanding the possibilities for applying similar or worse measures against other targets at home, as the summer of 2020 showed. A politically divided and economically destabilized country turned the War on Terror into a cultural—and then a tribal—struggle. It began on the ideological frontiers of the Republican Party before expanding to conquer the GOP, often with the acquiescence of the Democratic Party. Today's nativist resurgence walked through a door opened by the 9/11 era. And that door remains open. Reign of Terror shows how these developments created an opportunity for American authoritarianism and gave rise to Donald Trump. It shows that Barack Obama squandered an opportunity to dismantle the War on Terror after killing Osama bin Laden. By the end of his tenure, the war had metastasized into a bitter, broader cultural struggle in search of a demagogue like Trump to lead it. Reign of Terror is a pathbreaking and definitive union of journalism and intellectual history with the power to transform how America understands its national security policies and their catastrophic impact on civic life.

The French Terror Wave, 2015-2016 - Marc E. Vargo 2021-01-19

A torrent of Islamist terrorism swept across France in 2015 and 2016, executed by militant jihadists on behalf of al-Qaeda and the Islamic State (ISIS). Their targets ranged from the Paris offices of Charlie Hebdo magazine to the Bataclan Theatre on the Boulevard Voltaire to a parish church in a Normandy village and a beachfront promenade on the Mediterranean. This book reconstructs these and other terrorist offensives France weathered during this period. Placing each attack in its sociopolitical context, the author examines the backgrounds and motives of the perpetrators, the attributes of the victims and the legacy of the attacks for the people.

Without Proof Or Evidence - O. K. Bouwsma 2004-03-01

In *Without Proof or Evidence* O. K. Bouwsma weaves through the central topics of Western religion: the rationality of religious belief, the nature of Christianity, the promise of eternal life, the definition of faith, and proofs of the existence of God. When he works with the problems of Descartes or Moore or Wittgenstein, surveying the marketplace of language in which we all have commerce, he has the familiarity of an experienced trader. But in his work with the problems of Anselm or Nietzsche or Kierkegaard, in which the Scriptures move between background and foreground, there is another dimension, a concern with whether the Scriptures have been properly understood, what such an understanding might be, and how it affects someone who so understands them.

Tabloid Terror - Francois Debrix 2007-09-12

This book analyzes the methods, effects, and mechanisms by which international relations reach the US citizen. Deftly dissecting the interrelationships of national identity formation, corporate 'news and opinion' dissemination, and the quasi-academic apparatus of war justification - focusing on the Bush administration's exploitation of the fear and insecurity caused by 9/11 and how this has manifested itself in the US media (especially the tabloid populist media). Debrix explains how all serve to defend and produce state power and develops a model of tabloidized international relations, where responses are both

organized by, and supportive of, a strong centralized US government. The field of International Relations sorely needs such analytics, in so far as it explains how people in their everyday lives relate to transnational issues. *Tabloid Terror* critically covers a wide variety of US popular culture from the Internet to Fox News; analyzes diverse authors as Julia Kristeva, J.G. Ballard and Robert Kaplan and takes into account renowned international relations interlocutors as Don Imus, Bill O'Reilly, and Tommy Franks.

The Vagabond - George Walker 2004-09-14

First published in 1799, George Walker's *The Vagabond* was an immediate popular success. Offering a vitriolic critique of post-Bastille Jacobinism and sansculotte-style mob rule, its true-to-life satirical portraits of many of the radical men and women who fought in the forefront of the "British Revolution" are nonetheless full of playful banter and farce. With swipes at Hume, Rousseau, Godwin, Wollstonecraft, and Paine; the French Revolution; and the ideas of the noble savage, natural virtue, liberty, equality, and romantic primitivism, *The Vagabond* offers a unique cross-section of 1790s radicalism. This Broadview edition contains a critical introduction and a wide selection of primary source materials that situate the novel in the context of the revolutionary debate of the 1790s. Appendices include contemporary reviews of the novel and excerpts from the writings of a variety of radicals and reactionaries engaged in the debate, such as Hume, Rousseau, Paine, Thelwall, Wollstonecraft, Godwin, Burke, Playfair, Malthus, and Cobbett, among many others.

Blood Money - Richard Nowell 2010-12-23

Scholars have consistently applied psychoanalytic models to representations of gender in early teen slasher films such as *Black Christmas* (1974), *Halloween* (1978) and *Friday the 13th* (1980) in order to claim that these were formulaic, excessively violent exploitation films, fashioned to satisfy the misogynist fantasies of

teenage boys and grind house patrons. However, by examining the commercial logic, strategies and objectives of the American and Canadian independents that produced the films and the companies that distributed them in the US, *Blood Money* demonstrates that filmmakers and marketers actually went to extraordinary lengths to make early teen slashers attractive to female youth, to minimize displays of

violence, gore and suffering and to invite comparisons to a wide range of post-classical Hollywood's biggest hits; including *Love Story* (1970), *The Exorcist* (1973), *Saturday Night Fever* (1977), *Grease* and *Animal House* (both 1978). *Blood Money* is a remarkable piece of scholarship that highlights the many forces that helped establish the teen slasher as a key component of the North American film industry's repertoire of youth-market product.
