**Myths and Realities of Caribbean History** - Basil A. Reid 2009-04-12

This book seeks to debunk eleven popular and prevalent myths about Caribbean history. Using archaeological evidence, it corrects many previous misconceptions promulgated by history books and oral tradition as they specifically relate to the pre-Colonial and European-contact periods. It informs popular audiences, as well as scholars, about the current state of archaeological/historical research in the Caribbean Basin and asserts the value of that research in fostering a better understanding of the region's past. Contrary to popular belief, the history of the Caribbean did not begin with the arrival of Europeans in 1492. It actually started 7,000 years ago with the infusion of Archaic groups from South America and the successive migrations of other peoples from Central America for about 2,000 years thereafter. In addition to discussing this rich cultural diversity of the Antillean past, *Myths and Realities of Caribbean History* debates the misuse of terms such as "Arawak" and "Ciboneys," and the validity of Carib cannibalism allegations.

**Wishing for Wings** - Debbie Jacob 2013-10-01

They were outcasts, the forgotten boys of Trinidad and Tobago imprisoned for violent crimes including armed robbery and murder. They had nothing left but a wish for a better life, the feeling that they would need an education to achieve their goals, and a desperate desire to find an English teacher. In 2010 Debbie Jacob entered the gates of the Youth Training Centre (YTC), the remand centre for boys in the

Caribbean island of Trinidad - it would be a move that would change her life and the lives of her young charges forever. Based on a true story, *Wishing for Wings* recounts Debbie's challenging journey of preparing seven young men for the Caribbean Examinations Council (CXC) English Language exam. Heartbreaking but also encouraging, Debbie's story and those of her students, offer an unprecedented look into the lives of troubled teens and boys in prison. The realities of the education and justice systems are brought into sharp focus as are issues such as teaching (formal) English in a Creole speaking environment. It is a story of challenge and triumph; of rebellion and redemption; of loss and of learning, but most of all it is about the Power of Love. Debbie Jacob took a chance with her students, and they took a chance with her. In the end, both teacher and students would discover just how much they had come to need each other. Impossible to put down, *Wishing for Wings* captures both the fear and the pleasure of one teacher in uncharted territory; and the hope and trust sustaining her students. The story of their journey together will make you cry and make you smile, but most of all, it will remind you of the enduring power of faith and love.

**The Handbook on Caribbean Education** -

Eleanor J. Blair 2021-03-01

This book brings together leading scholars of Caribbean education from around the world. Schooling continues to hold a special place both as a means to achieve social mobility and as a mechanism for supporting the economy of Caribbean nations. In this book, the Caribbean includes the Greater and Lesser Antilles. The Greater Antilles is made up of the five larger islands (and six countries) of the northern Caribbean, including the Cayman Islands, Cuba, Hispaniola (Haiti and the Dominican Republic), Puerto Rico, and Jamaica. The Lesser Antilles includes the Windward and Leeward Islands which are inclusive of Barbados, St. Vincent, Trinidad and Tobago along with several other islands. Each chapter provides a unique perspective on the various social and cultural issues that define Caribbean education and schooling. The Handbook on Caribbean Education fills a void in the literature and documents the important research being done throughout the Caribbean. Creating a space where Caribbean voices are a part of "international" discussions about 21st century global matters and concerns is an important contribution of this work.

*Contested Bodies* - Sasha Turner 2017-05-05

It is often thought that slaveholders only began to show an interest in female slaves' reproductive health after the British government banned the importation of Africans into its West Indian colonies in 1807. However, as Sasha Turner shows in this illuminating study, for almost thirty years before the slave trade ended, Jamaican slaveholders and doctors adjusted slave women's labor, discipline, and health care to increase birth rates and ensure that infants lived to become adult workers. Although slaves' interests in healthy pregnancies and babies aligned with those of their masters, enslaved

mothers, healers, family, and community members distrusted their owners' medicine and benevolence. Turner contends that the social bonds and cultural practices created around reproductive health care and childbirth challenged the economic purposes slaveholders gave to birthing and raising children. Through powerful stories that place the reader on the ground in plantation-era Jamaica, *Contested Bodies* reveals enslaved women's contrasting ideas about maternity and raising children, which put them at odds not only with their owners but sometimes with abolitionists and enslaved men. Turner argues that, as the source of new labor, these women created rituals, customs, and relationships around pregnancy, childbirth, and childrearing that enabled them at times to dictate the nature and pace of their work as well as their value. Drawing on a wide range of sources—including plantation records, abolitionist treatises, legislative documents, slave narratives, runaway advertisements, proslavery literature, and planter correspondence—*Contested Bodies* yields a fresh account of how the end of the slave trade changed the bodily experiences of those still enslaved in Jamaica.

*Pan-Africanism, and the Politics of African*

*Citizenship and Identity* - Toyin Falola  
2013-10-08

There is no recent literature that underscores the transition from Pan-Africanism to Diaspora discourse. This book examines the gradual shift and four major transformations in the study of Pan-Africanism. It offers an "academic post-mortem" that seeks to gauge the extent to which Pan-Africanism overlaps with the study of the African Diaspora and reverse migrations; how Diaspora studies has penetrated various disciplines while Pan-Africanism is located on the periphery of the field. The book argues that the gradual shift from Pan-African discourses has created a new pathway for engaging Pan-African ideology from academic and social perspectives. Also, the book raises questions about the recent political waves that have swept across North Africa and their implications to the study of twenty-first century Pan-African solidarity on the African continent. The ways in which African institutions are attracting and mobilizing returnees and Pan-Africanists with incentives as dual-citizenship for diasporans to support reforms in Africa offers a new alternative approach for exploring Pan-African ideology in the twenty-first century. Returnees are also using these incentives to gain economic and cultural advantage. The book will appeal to policy makers, government institutions, research libraries, undergraduate and graduate students, and scholars from many different disciplines.

*Demonic Possession and Lived Religion in Later*

*Medieval Europe* - Sari Katajalla-Peltomaa  
2020-03-04

Demonic possession was a spiritual state that often had physical symptoms; however, in *Demonic Possession and Lived Religion in Later Medieval Europe*, Sari Katajalla-Peltomaa argues that demonic possession was a social phenomenon which should be understood with regard to the community and culture. She focuses on significant case studies from canonization processes (c. 1240-1450) which show how each set of sources formed its own specific context, in which demonic presence derived from different motivations, reasonings, and methods of categorization. The chosen perspective is that of lived religion, which is both a thematic approach and a methodology: a focus on rituals, symbols, and gestures, as well as sensitivity to nuances and careful contextualizing of the cases are constitutive elements of the argumentation. The analysis contests the hierarchy between the 'learned' and the 'popular' within religion, as well as the existence of a strict polarity between individual and collective religious participation. Demonic presence disclosed negotiations over authority and agency; it shows how the personal affected the communal, and vice versa, and how they were eventually transformed into discourses and institutions of the Church; that is, definitions of the miraculous and the diabolical.

Geographically, the volume covers Western Europe, comparing Northern and Southern material and customs. The structure follows the logic of the phenomenon, beginning with the background reasons offered as a cause of demonic possession, continuing with communities' responses and emotions, including construction of sacred caregiving methods. Finally, the ways in which demonic presence contributed to wider societal debates in the fields of politics and spirituality are discussed. Alterity and inversion of identity, gender, and various forms of corporeality and the interplay between the sacred and diabolical are themes that run all through the volume.

**At a Crossroads** - María Marta Ferreyra  
2017-05-18

"Higher education in Latin America and the Caribbean has expanded dramatically in the past 15 years, as the average gross enrollment rate

has more than doubled, and many new institutions and programs have been opened. Although higher education access has become more equitable, and higher education supply has become more varied, many of the 'new' students in the system are, on average, less academically ready than are their more advantaged counterparts. Furthermore, only half of higher education students, on average, complete their degree, and labor market returns to higher education vary greatly across institutions and programs. Thus, higher education is at a crossroads today. Given the region's urgency to raise productivity in a low-growth, fiscally constrained environment, going past this crossroads requires the formation of skilled human capital fast and efficiently. 'At a Crossroads: Higher Education in Latin America and the Caribbean' contributes to the discussion by studying quality, variety, and equity of higher education in Latin America and the Caribbean. The book presents comprehensive evidence on the recent higher education expansion and evolution of higher education labor market returns. Using novel data and state-of-the-art methods, it studies demand and supply drivers of the recent expansion. It investigates the behavior of institutions and students and explores the unintended consequences of large-scale higher education policies. Framing the analysis are the singular characteristics of the higher education market and the market segmentation induced by the variety of students and institutions in the system. At this crossroads, a role emerges for incentives, information, accountability, and choice."

**The Modern Caribbean** - Franklin W. Knight  
2014-07-01

This collection of thirteen original essays by experts in the field of Caribbean studies clarifies the diverse elements that have shaped the modern Caribbean. Through an interdisciplinary examination of the complexities of race, politics, language, and environment that mark the region, the authors offer readers a thorough understanding of the Caribbean's history and culture. The essays also comment thoughtfully

on the problems that confront the Caribbean in today's world. The essays focus on the Caribbean island and the mainland enclaves of Belize and the Guianas. Topics examined include the Haitian Revolution of the late eighteenth and early nineteenth centuries; labor and society in the nineteenth-century Caribbean; society and culture in the British and French West Indies since 1870; identity, race, and black power in Jamaica; the "February Revolution" of 1970 in Trinidad; contemporary Puerto Rico; politics, economy, and society in twentieth-century Cuba; Spanish Caribbean politics and nationalism in the nineteenth century; Caribbean migrations; economic history of the British Caribbean; international relations; and nationalism, nation, and ideology in the evolution of Caribbean literature. The authors trace the historical roots of current Caribbean difficulties and analyze these problems in the light of economic, political, and social developments. Additionally, they explore these conditions in relation to United States interests and project what may lie ahead for the region. The challenges currently facing the Caribbean, note the editors, impose a heavy burden upon political leaders who must struggle "to eliminate the tensions when the people are so poor and their expectations so great." The contributors are Herman L. Bennett, Bridget Brereton, David Geggus, Franklin W. Knight, Anthony P. Maingot, Jay R. Mandel, Roberto Marquez, Teresita Martinez Vergne, Colin A. Palmer, Bonham C. Richardson, Francis A. Scarano, and Blanca G. Silvestrini.
