**Vision Board** - Rwg 2019-12-30

Vision Boards (or Dream Boards) are popular with a wide variety of demographics and have been endorsed by numerous celebrities including Oprah. Group workshops and classes on developing dream boards are also popular. Traditionally, vision boards are collaged from aspirational magazine images that reflect the creator's goals. You could encourage readers to collage and stick images onto it or draw in their visions. As these boards are intended to help the creator visualize a better life for themselves, they tend to be popular with entrepreneurs, high achievers and people interested in self-improvement. They are especially popular with people who follow 'Law of Attraction' philosophy (also known as *The Secret* or *Manifesting*). There are many ways to use vision boards in your book. A simple option is to have a book full of vision boards for people to draw in (maybe 52, one for each week of the year). A better option may be to include it in a planner, for example by including a vision board at the start of each month or week or to mix it with journal pages/ Vision boards can also be tailored and customized to specific events or demographics, particularly for people who are going through transitions in life. For example pregnant women (or expectant fathers) may visualize a new life

with their baby. People going through a divorce may look forward to better times ahead, or people may want to visualize beating an illness or addiction. You could even niche further, for example teens may want to visualize a special event, like a sports match, dance recital or big social event. We encourage you to design your own vision board frameworks and have fun with the concept!

**The Vision Board Book** - Gini Graham Scott  
2018-02-20

THE VISION BOARD BOOK provides a way to create your vision board in a book, in which you

envision what you want and decide what action steps to take to get it. But instead of creating your vision on a large board, usually about 24"x36," you create it in an 8 1/2"x11" book. The advantage of this approach is that you can take this book with you wherever you go and look at it whenever you want. You can also readily share this book with others, and you can take a photo of the pages or turn your book into a PDF and share that, too. Plus, with a book you can add in comments, add pages, and otherwise expand on your original vision. It is also easier to carry around. In fact, you can readily create a series of vision boards every year or every few months, so you can both see where you are going and where you have been. Perhaps think of this book like a visual journal or diary in which you record your hopes and dreams and later look back from time to time. But now you have a separate book which you can focus on each day and use to keep track of how you are doing, as well as motivate you to go after and make real what you want.

"In life you don't attract what you want, you  
attract what you believe." This is to say that we  
are co-creators of our own reality. We attract to  
us the things that we believe subconsciously,  
even if what we believe is completely different  
from what we actually want. You may want that  
perfect relationship, but do you believe you  
deserve it? You may want to become an  
entrepreneurial success, but do you believe you  
can actually do it? In this world, you are  
bombarded with messages, images, and ideas  
that program your unconsciousness. This is done

through mass media, like negative news stories,  
social media etc. This combined with a daily  
routine of being overworked, stressed, and  
feeling trapped in your own life makes a deadly  
concoction--one that kills your dreams and  
passion. If you find yourself focused on the  
negativity in the world, distracted with  
celebrities, and demotivated by discouraging  
statistics, then you can clearly see how external  
factors affect your drive, distract you from your  
own goals, and keep you from living your ideal  
life. It is a fact that what you focus on expands!  
So it is essential that you focus on the RIGHT  
things. A great vision board will help you do this,  
and The Vision Board Clip Art Book will help you  
create that Vision Board. Vision boards are a  
visual reminder that your life is completely yours  
to create, that you can indeed have anything you  
truly desire. It provides a clear image of what  
you want and keeps your thoughts aligned with  
your goals to inspire you to take meaningful  
actions each day to achieve them. In this way, it  
will align your wants with your beliefs to  
manifest the outcomes that you want for your  
life. The Vision Board Clip Art Book is the  
perfect book for you to start designing your own

Are you like so many people who have tried unsuccessfully to attain your goals with a vision board? Vision boards are based on the so-called, law of attraction; like always attracts like. As in the book, *The Secret*, if you think it and live it, the universe will deliver it to you. Unfortunately, the law of attraction does not work 99.9% of the time. In his thorough and candid analysis, Dr. Farber takes you through a fascinating history of the law of attraction as well as the good, the bad, and the ugly side of vision boards. your motivation, and lessen your chance of achieving goals. This is not just a book about what not to do. This book shows us how to upgrade our vision boards and boost our success by utilizing mind-brain science and positive psychology research. Dr. Farber has the solution to our goal-achieving desires. He introduces us to the "Key to Achieve Principles" and The Action Board goal-achieving system. As the inventor of The Action Board, Dr. Farber is the world's leading expert in this system!
