[AQA Law for AS Sixth Edition](#) - Jacqueline Martin 2015-05-29

Cover all the AQA AS level topics clearly with this textbook written by the leading A level Law author. Up to date, accessible and now with more past papers to prepare students for their exams, AQA Law for AS, Fifth Edition, is matched to the course. Jacqueline Martin has helped hundreds of thousands be successful in studying law. She has ensured that this book addresses every topic in detail. Revised to reflect recent changes in the legal system, in areas such civil cases, legal profession, legal aid, sentencing and jury service

Cyber Operations and International Law - François Delerue 2020-03-19

This book offers a comprehensive overview of the international law applicable to cyber operations. It is grounded in international law, but is also of interest for non-legal researchers, notably in political science and computer science. Outside academia, it will appeal to legal advisors, policymakers, and military organisations.

Ethics for A-Level - Mark Dimmock 2017-07-31

What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are

applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

Business Law I Essentials - MIRANDE. DE ASSIS VALBRUNE (RENEE. CARDELL, SUZANNE.) 2019-09-27

A less-expensive grayscale paperback version is available. Search for ISBN 9781680923018. Business Law I Essentials is a brief introductory textbook designed to meet the scope and sequence requirements of courses on Business Law or the Legal Environment of Business. The concepts are presented in a streamlined manner, and cover the key concepts necessary to establish a strong foundation in the subject. The textbook follows a traditional approach to the study of business law. Each chapter contains learning objectives, explanatory narrative and concepts, references for further reading, and

end-of-chapter questions. Business Law I Essentials may need to be supplemented with additional content, cases, or related materials, and is offered as a foundational resource that focuses on the baseline concepts, issues, and approaches.

Abortion and the Law in America - Mary Ziegler 2020-03-31

With the Supreme Court likely to reverse *Roe v. Wade*, the landmark abortion decision, American debate appears fixated on clashing rights. The first comprehensive legal history of a vital period, *Abortion and the Law in America* illuminates an entirely different and unexpected shift in the terms of debate. Rather than simply championing rights, those on opposing sides battled about the policy costs and benefits of abortion and laws restricting it. This mostly unknown turn deepened polarization in ways many have missed. Never abandoning their constitutional demands, pro-choice and pro-life advocates increasingly disagreed about the basic facts. Drawing on unexplored records and interviews with key participants, Ziegler complicates the view that the Supreme Court is responsible for the escalation of the conflict. A gripping account of social-movement divides and crucial legal strategies, this book delivers a definitive recent history of an issue that transforms American law and politics to this day.

An Introduction to Law - Phil Harris 2006-12-14
Since the publication of its first edition, this textbook has become the definitive student introduction to the subject. As with earlier editions, the seventh edition gives a clear understanding of fundamental legal concepts and their importance within society. In addition, this book addresses the ways in which rules and the structures of law respond to and impact upon changes in economic and political life. The title has been extensively updated and explores recent high profile developments such as the Civil Partnership Act 2005 and the Racial and Religious Hatred Bill. This introductory text covers a wide range of topics in a clear, sensible fashion giving full context to each. For this reason *An Introduction to Law* is ideal for all students of law, be they undergraduate law students, those studying law as part of a mixed degree, or students on social sciences courses which offer law options.

Law and Economics - Robert Cooter 2000
Provides students with a method for applying economic analysis to the study of legal rules and institutions. Four key areas of law are covered: property; contracts; torts; and crime and punishment. Added examples and cases help to clarify economic applications further.

AQA Law AS - Richard Wortley 2008-05-01
AQA Law is the only set of resources to have been developed with, and exclusively endorsed by, AQA, making them the first choice to support the new AQA specification for AS and A2. With a range of truly blended resources, AQA Law offers complete coverage and support through a variety of printed and electronic media.

A-Level Law in Action - Brenda Mothersole 1995
This carefully structured and approachably written text emphasises active learning and encourages discussion. The first section provokes the student to examine how the law works and its role in society. After a central section which introduces Tort and Contract in depth, the third section challenges readers to solve legal problems in the key contexts of the marketplace, employment, the family and crime. The substantial base of case and statute law is brightly and freshly presented. Emphasising the development of legal skills and the social context of law, Mothersole and Ridley will kindle the interest of a new generation of students.

The Essential Law Dictionary - Amy Hackney Blackwell 2008

The *Essential Law Dictionary* is an essential up-to-date legal reference, containing over 3,000 entries explaining legal language that can often be hard to understand, even for lawyers. This book focuses on defining the terms that people today are most likely to encounter when dealing with the law. The definitions are clear, concise, and easy-to-understand. Whether you are a lawyer, a law student, or a layperson, this handy reference will help you understand the precise meaning of any legal term.

Public School Law: Pearson New International Edition PDF eBook - Martha M. McCarthy 2013-10-03

Written for upper-level and graduate courses in School Law. Providing an all-inclusive treatment of the current status and evolution of the law governing public schools, this is the most comprehensive and well-documented school law

text available. *Public School Law: Teachers' and Students' Rights*, Seventh Edition, addresses legal principles applicable to practitioners in a succinct but comprehensive manner. It uniquely blends a detailed treatment of landmark cases with a thorough discussion of the legal context, trends, and generalizations to guide all school personnel in their daily activities. Information in this text will help alleviate concerns voiced by educators who either do not know the legal concepts that govern schools or feel that the scales of justice have been tipped against them. Primarily written for school administrators and teachers to learn the most important points of the cases and how the cases will impact their practices, this new edition covers a wider range of legal topics, takes a much more in-depth approach to discussing the cases presented, and cites many more current cases that are relevant to practitioners than any other school law textbook in comparison.

Model Rules of Professional Conduct - American Bar Association. House of Delegates 2007
The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Cambridge International AS and A Level Chemistry Coursebook with CD-ROM -

Lawrie Ryan 2014-07-31

Fully revised and updated content matching the Cambridge International AS & A Level Chemistry syllabus (9701). Endorsed by Cambridge International Examinations, the Second edition of the AS/A Level Chemistry Coursebook comprehensively covers all the knowledge and skills students need for AS/A Level Chemistry 9701 (first examination 2016). Written by renowned experts in Chemistry, the

text is written in an accessible style with international learners in mind. The Coursebook is easy to navigate with colour-coded sections to differentiate between AS and A Level content. Self-assessment questions allow learners to track their progression and exam-style questions help learners to prepare thoroughly for their examinations. Contemporary contexts and applications are discussed throughout enhancing the relevance and interest for learners.

International Trade Law: An Interdisciplinary, Non-Western Textbook, Fourth Edition (2015), Volume 1: Fundamental Obligations - Raj Bhala 2015-10-07

International Trade Law: An Interdisciplinary, Non-Western Textbook has been revised in its 4th edition, building upon the global successes of its predecessor editions. Truly a "world law" textbook applicable in any country, this edition offers a theoretical and practical approach to economics, politics, international relations, philosophy, and religion as they relate to international trade law. It may be used either in a two semester sequenced course, or as stand-alone volumes for distinct one-semester courses. Additional highlights of the 4th edition include:

- Coverage of vital domestic trade legislation on trade sanctions and export controls
- Emphasis on rising powers such as India and China, and controversies involving Iran, North Korea, and Russia
- Technical every-day issues, such as dumping margin and net countervailable subsidization rates, and critical economic sectors, such as IP and services
- GATT-WTO law and free trade agreements (FTAs)

The 4th edition has been thoroughly updated with new chapters covering: ethics, trade adjustment assistance (TAA), American trade history, Indian trade law and policy, WTO accession, like products, trade and energy, technical barriers to trade, transparency (TBT), non-application and waivers, balance of payments (BOP) crises, GATT morality exception trade facilitation, sanitary and phytosanitary (SOS) measures, compulsory IP licensing, trade remedies against non-market economies (NMEs), currency manipulation, trade sanctions, export controls, labor and the environment, trade and climate change, development economics, and Africa. Each chapter is manageably sized and offers a user-friendly structure, allowing the flexibility of

choosing the chapters that best serve the needs of a professor's individual course. The topics in each chapter help students establish a fundamental foundation upon which to build their knowledge of international trade law. The eBook versions of this title feature links to Lexis Advance for further legal research options.

Cambridge International AS and A Level Business Coursebook with CD-ROM - Peter Stimpson 2014-10-16

This revised set of resources for Cambridge International AS and A Level Business syllabus (9609) is thoroughly updated for the latest version of the curriculum. Written by experienced authors, the Coursebook provides comprehensive coverage of the syllabus. Accessible language combined with the clear, visually-stimulating layout makes this an ideal resource for the course. Questions and explanation of key terms reinforce knowledge; different kinds of activities build application, analytical and evaluation skills; and case studies contextualise the content making it relevant to international learners. It provides thorough examination support for all papers with exam-style questions with each chapter and an extensive Paper 3 style case study with each unit. The student CD-ROM contains revision aids, further questions and activities. A Teacher's CD-ROM is also available.

Environmental Protection, Law and Policy - Jane Holder 2007-07-19

This 2007 book examines environmental law from a range of perspectives, emphasising the policy world from which environmental law is drawn and nourished. Those working within the discipline of environmental law need to engage with concepts and methods employed by disciplines other than law. The authors analyse the ways in which legal activities are supported and legitimated by work in traditional scientific or technical domains, as well as by certain more obscure but also influential cultural or philosophical assumptions. A range of regulatory techniques is explored in this book, through a close examination of both pollution control and land use. The highly complex nature of current environmental problems, demanding sophisticated and responsive legal controls, is illustrated by several in-depth case studies, including legal and policy analysis of the highly

contested issues of genetically modified organisms and renewable energy projects.

AQA A-level Law for Year 1/AS - Jacqueline Martin 2017-08-14

Exam Board: AQA Level: AS/A-level Subject: Law First Teaching: September 2017 First Exam: June 2018 This title has been approved by AQA. Business Law and the Legal Environment - Jethro K. Lieberman 1993-04

Principles of Law - M.E. Bayles 2012-12-06
 During the last half of the twentieth century, legal philosophy (or legal theory or jurisprudence) has grown significantly. It is no longer the domain of a few isolated scholars in law and philosophy. Hundreds of scholars from diverse fields attend international meetings on the subject. In some universities, large lecture courses of five hundred students or more study it. The primary aim of the Law and Philosophy Library is to present some of the best original work on legal philosophy from both the Anglo American and European traditions. Not only does it help make some of the best work available to an international audience, but it also encourages increased awareness of, and interaction between, the two major traditions. The primary focus is on full-length scholarly monographs, although some edited volumes of original papers are also included. The Library

editors are assisted by an Editorial Advisory Board of internationally renowned scholars.

Places of Refuge for Ships in Distress - Anthony Morrison 2012-06-07
 By examining the problem of places of refuge for ships in distress and proposed solutions under international, national and regional law, *Places of Refuge for Ships in Distress* by Anthony Morrison highlights the need for further solutions and presents alternative solutions.

Comparative Company Law - Andreas Cahn 2018-10-04
 Presents in-depth, comparative analyses of German, UK and US company laws illustrated by leading cases, with German cases in English translation.

Constitutional and Administrative Law - David Pollard 2007-06-14
 The fourth edition of *Constitutional and Administrative Law: Text with Materials* provides a wealth of essential materials drawn from a wide range of sources and integrated with lively commentary. It enables students to gain a full understanding of public law by explaining the context of its historical development and current political climate.

Contract Law - Mary Charman 2013-06-17
 This textbook covers the Contract Law option of the new A-level law syllabus, and provides at the same time an ideal introduction for anybody coming to the subject for the first time. The book covers all A-level syllabuses/specification requirements, and is written by the principal examiner in Contract Law for one of the major examination boards. It contains extensive case illustration, and a range of examination related questions and activities. There is a special focus on key skills, and on the new synoptic assessment syllabus requirements. This fully updated fourth edition builds upon the success of the first three editions, with new case law (especially on offer and acceptance, legal intent, terms, exemption clauses and misrepresentation remedies) and coverage of new statute law (especially Unfair Terms in Consumer Contracts Regulations).

Cambridge International AS and A Level Economics Second Edition - Peter Smith 2021-05-28
 Endorsed by Cambridge International to support the full syllabus for examination from 2023.

Build strong subject knowledge and skills and an international outlook with author guidance and in-depth coverage of the revised Cambridge International AS & A Level Economics syllabus (9708). - Understand how the key concepts relate to real-life contexts with numerous case studies and examples from economies around the world. - Build confidence with opportunities to check understanding and tackle exam-style questions. - Ensure a thorough understanding with synoptic links that encourage students to apply their knowledge across different elements of the course. - Master the vocabulary needed to critically assess with key terms and concepts defined throughout, especially helpful for those whose first language is not English. - Develop quantitative skills with opportunities to interpret data throughout. - Maximise potential with study tips in each chapter that cover tricky concepts and provide advice on how to apply skills.

OCR A Level Law Second Edition - Richard Wortley 2021-09-01

This fully updated and accessible textbook combines Year 1 and Year 2 content for the refreshed OCR specification with brand new cases, activities and features to provide comprehensive support for the A level course. Written by experts Nigel Briggs, Nick Price and Richard Wortley, and edited by Sue Teal, the content is carefully tailored to the OCR specification. - Develop conceptual understanding with full coverage of all topics in the OCR A level specification in one book. - Establish a firm understanding with key term definitions and tables of relevant cases and legislation for each topic. - Build sound knowledge and analysis throughout the course with knowledge-based questions and revision summaries at the end of each chapter. This Student Book is endorsed by OCR - This title fully supports the specification - It has passed OCR's rigorous quality assurance programme - It is written by curriculum experts

International Sports Law. Textbook for Bachelor Students - Zakharova Larisa I.; ed. by Bekyashev K.A. 2018-10-10

The Textbook was prepared in accordance with the Federal State Educational Standard for

Higher Education as applied to specialisation 40.03.01 "Jurisprudence" (Bachelor (degree) qualification) and the syllabus of the academic discipline "International Sports Law", approved by the International Law Department of the Kutafin Moscow State Law University in January 2017. The Textbook consists of 17 chapters. They correspond to the themes of the syllabus of the academic discipline. In its General part, the history, object, subjects, sources, special principles of international sports law, the process of regulation of international sports relations at the universal level within the framework of the United Nations, its specialised agencies and programs, at the regional level within the Council of Europe and the European Union, at the bilateral level are considered. The Author makes a corresponding distinction with the object, subjects, sources, special principles of *lex sportiva*, a set of corporate norms elaborated by the International Olympic Committee, the International Paralympic Committee, international and national sports federations. Special attention is paid to the study of ways of resolving sports disputes through arbitration and appeal proceedings in the Court of Arbitration for Sport (CAS), by means of judicial proceedings in the European Court of Human Rights (ECtHR) and the Court of Justice of the European Union (CJEU). The Special Part of the Textbook identifies problem areas that require additional efforts to implement international legal and corporate regulations: the use of doping in sport, violence and hooligan behaviour of spectators and fans, environmental protection when organising international sports competitions, economic crimes and discrimination in international sports, protection of property rights with regard to television and radio broadcasts of international sports competitions, the use of Olympic symbols, countering threats to a healthy lifestyle. International instruments and acts of the Russian legislation are as of May 2018. The Textbook will be of interest for Bachelor students of law, lecturers of higher education institutions, practicing lawyers, staff members of organizations of the Olympic and Paralympic movements, as well as for all those whose academic interests and practical activities are connected with international law, sports law and

lex sportiva.

Mathematics for Machine Learning - Marc Peter Deisenroth 2020-04-23

The fundamental mathematical tools needed to understand machine learning include linear algebra, analytic geometry, matrix decompositions, vector calculus, optimization, probability and statistics. These topics are traditionally taught in disparate courses, making it hard for data science or computer science students, or professionals, to efficiently learn the mathematics. This self-contained textbook bridges the gap between mathematical and machine learning texts, introducing the mathematical concepts with a minimum of prerequisites. It uses these concepts to derive four central machine learning methods: linear regression, principal component analysis, Gaussian mixture models and support vector machines. For students and others with a mathematical background, these derivations provide a starting point to machine learning texts. For those learning the mathematics for the first time, the methods help build intuition and practical experience with applying mathematical concepts. Every chapter includes worked examples and exercises to test understanding. Programming tutorials are offered on the book's web site.

Law for Business and Personal Use - John E. Adamson 2011-01-11

Explore the foundations of business law as well as the application of legal concepts to everyday life. **LAW FOR BUSINESS AND PERSONAL USE, 19E**, combines strong content and interactive technology with consistent, proven instruction to maintain student interest and support active learning. Important, up-to-date and interesting cases and scenarios highlight key points. Discussion and activity tasks increase your students' understanding of more difficult concepts. Examination practice, practice questions and self-test questions to help your students prepare for their exams

The Laws of Human Nature - Robert Greene
2019-10-01

From the #1 New York Times-bestselling author of *The 48 Laws of Power* comes the definitive new book on decoding the behavior of the people around you. Robert Greene is a master guide for millions of readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves from our own emotions and master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, *The Laws of Human Nature* offers brilliant tactics for success, self-improvement, and self-defense.

A Level and AS Level Law - Martin Hunt 2003
Suitable for anyone undertaking either AS or A level law examinations, this text covers all subjects offered under the AQA and OCR specifications. It has been fully updated and revised to incorporate both legal developments and experience of the specifications in practice.

Green Engineering - David T. Allen 2001-09-06

A chemical engineer's guide to managing and minimizing environmental impact. Chemical processes are invaluable to modern society, yet they generate substantial quantities of wastes and emissions, and safely managing these wastes costs tens of millions of dollars annually. Green Engineering is a complete professional's guide to the cost-effective design, commercialization, and use of chemical

processes in ways that minimize pollution at the source, and reduce impact on health and the environment. This book also offers powerful new insights into environmental risk-based considerations in design of processes and products. First conceived by the staff of the U.S. Environmental Protection Agency, Green Engineering draws on contributions from many leaders in the field and introduces advanced risk-based techniques including some currently in use at the EPA. Coverage includes: Engineering chemical processes, products, and systems to reduce environmental impacts Approaches for evaluating emissions and hazards of chemicals and processes Defining effective environmental performance targets Advanced approaches and tools for evaluating environmental fate Early-stage design and development techniques that minimize costs and environmental impacts In-depth coverage of unit operation and flowsheet analysis The economics of environmental improvement projects Integration of chemical processes with other material processing operations Lifecycle assessments: beyond the boundaries of the plant Increasingly, chemical engineers are faced with the challenge of integrating environmental objectives into design decisions. Green Engineering gives them the technical tools they need to do so.
