Draplin is one of the new school of influential graphic designers who combine the power of design, social media, entrepreneurship, and DIY aesthetic to create a successful business and way of life. *Pretty Much Everything* is a mid-career survey of work, case studies, inspiration, road stories, lists, maps, how-tos, and advice. It includes examples of his work—posters, record covers, logos—and presents the process behind his design with projects like *Field Notes* and the “Things We Love” State Posters. Draplin also offers valuable advice and hilarious commentary that illustrates how much more goes into design than just what appears on the page. With Draplin’s humor and pointed observations on the contemporary design scene, *Draplin Design Co.* is the complete package for the new generation of designers.

The title is taken from a metaphor, common in the Nordic countries, of a shared and highlighted characteristic (like a long connecting thread in woven material), that runs through and connects themes, ideas, stories, and, in this case, design.

Amy Sillman: Faux Pas: Selected Writings and Drawings - Charlotte Houette 2020-10-06
Essays on art-making, abstraction, humor, not-knowing, awkwardness and more, from one of New York's most influential and popular painters and teachers Since the 1970s, Amy Sillman--a beloved and key figure of the New York art scene--has developed a singular body of work that includes large-scale gestural paintings blending abstraction with representation, as well as zines and iPad animations. Over the past decade, Sillman has also produced stimulating essays on the practice of art or the work of other artists: for example, reevaluating the work of the abstract expressionists with a queer eye; elaborating on the role of awkwardness and the body in the artistic process; and discussing in depth the role and meanings of color and shape. Featuring a foreword by Lynne Tillman, *Faux Pas* is the first book to gather a significant selection of Sillman's essays, reviews and lectures, accompanied by drawings, most of them made specially for the book. *Faux Pas* aims at revealing the coherence and originality of Sillman's reflection, as she addresses the possibilities of art today, favoring excess over good taste, wrestling over dandyism, forms over symbols, with as much critical sense as humor. Based in New York City, Amy Sillman (born 1955) is an artist whose work consistently combines the visceral with the intellectual. She began to study painting in the 1970s at the School of Visual Arts and she received her MFA from Bard College in 1995. Her work has been exhibited internationally, including at the Whitney Biennial in 2014; her writing has appeared in *Bookforum* and *Artforum*, among other publications. She is currently represented by Gladstone Gallery, New York.

Hokusai's Brush is a companion to the Freer Gallery of Art's yearlong exhibition that celebrates the artist's fruitful career. The Freer, home to the world's largest collection of paintings by Japanese artist Katsushika Hokusai, has put on view for the first time in a decade his incredible and rarely seen sketches, drawings, and paintings. Together with essays that explore his life and career, Hokusai's Brush offers an in-depth breakdown of each painting, providing amazing commentary that highlight Hokusai's mastery and detail. While best known for his woodblock print series "Thirty-six Views of Mount Fuji" and particularly the widely recognizable "The Great Wave off Kanagawa," Hokusai is said to have produced 30,000 pieces of art. Los Angeles Modernism Revisited - Andreas Nierhaus 2020-02-15

Two Austrian-born designers have left their indelible mark on California's residential architecture of the 1930s to 1960s: Richard Neutra (1892?1970) and Rudolph M. Schindler (1887?1953) combined modern form and inventive construction with new materials to create a truly modern vision of living that remains inspirational to the present day.00This new book features twenty famous and lesser known houses from that period, designed by the two pioneers and other architects that were influenced by Neutra's and Schindler's ideas. All are marked by highly economical use and outstanding quality of space, a minimalist aesthetic, and by their ideal adaption to climatic conditions. They are monuments of a period as well as timeless models for contemporary and future architecture.00The images by photographer David Schreyer show the buildings in their present state as a commodity of highest quality that can be, and should be, altered to meet today's changed demands to a living space. Andreas Nierhaus's texts, based on interviews, explore the relationship of the present inhabitants to their homes and what they mean to them. Together, the authors offer uniquely intimate insights into a sophisticated way of life still too little known outside California.

The Beauty of Everyday Things - Soetsu Yanagi 2019-01-31

The daily lives of ordinary people are replete with objects, common things used in commonplace settings. These objects are our constant companions in life. As such, writes Soetsu Yanagi, they should be made with care and built to last, treated with respect and even affection. They should be natural and simple, sturdy and safe - the aesthetic result of wholeheartedly fulfilling utilitarian needs. They should, in short, be things of beauty. In an age of feeble and ugly machine-made things, these essays call for us to deepen and transform our relationship with the objects that surround us. Inspired by the work of the simple, humble craftsmen Yanagi encountered during his lifelong travels through Japan and Korea, they are an earnest defence of modest, honest, handcrafted things - from traditional teacups to jars to cloth and paper. Objects like these exemplify the enduring appeal of simplicity and function: the beauty of everyday things.
