This volume gives a unique insight into a part of the Middle Eastern life seldom seen by the West. "A most enjoyable book about [Muslim women]--simple, dignified, human, colorful, sad and humble as the life they lead." --Muhsin Mahdi, Jewett Professor of Arabic Literature, Harvard University.

**Eastern Arabic with MP3 Files** - Frank A. Rice 2005

The Middle East has become an increasingly important place in the minds and concerns of the English-speaking world. This volume, originally published under the title Jerusalem Arabic, is the gold standard for anyone beginning to learn the Arabic spoken by Palestinians, or those who live in Syria or Lebanon. Written in transcription using the Roman alphabet, the "Levantine" Arabic, or Jerusalem dialect, is a central Middle Eastern dialect and is recognized by Arabs virtually anywhere--in large part due to the Palestinian diaspora--and a good choice for anyone wishing to learn a base Arabic dialect. Enhanced by a CD with MP3 files (replacing the former set of nine audiocassettes), Eastern Arabic provides the best available structured introduction to the essential features and vocabulary of spoken Palestinian Arabic.

**A Basic Course in Moroccan Arabic with MP3 Files** - Richard S. Harrell 2006

A Basic Course in Moroccan Arabic is a textbook in spoken Moroccan Arabic that is written for beginners who are unfamiliar with the Arabic language, alphabet, pronunciation, vocabulary, and grammar. Written in Latin transcription it is carefully designed to present these elements in a progressive, user-friendly, step-by-step manner. Following the initial pronunciation introductions and practice, there are 130 lessons consisting of a text where a small number of phrases and sentences illustrate grammatical points. These sections also contain exercises in new grammar and vocabulary. Each lesson is structured in a way that guides the learner naturally and comfortably into an understanding of the structure of Moroccan Arabic. From there, the course progresses into ninety-seven short, conversational dialogs that place the student in a variety of social situations. First introduced to Arabic language students in the 1960s, A Basic Course in Moroccan Arabic still has no equal for clarity and ease of use. An audio CD of MP3 files that further aid and enhance the lessons is now bound into this volume.

**Formal Spoken Arabic FAST Course with MP3 Files** - Karin C. Ryding 2004

This Arabic language-learning classic is now enhanced with a bound-in CD of MP3 files. Designed to provide beginners in Arabic with maximum linguistic and cultural exposure in a short period (about 100 hours of contact time), this book consists of sixteen lessons with dialogs and exercises dealing with day-to-day scenarios: greeting people, getting a taxi, making phone calls, asking directions, discussing the weather, and effectively communicating with police and duty officers. The lessons help the reader to navigate situations at gas stations, marketplaces, restaurants, and in their own households. Formal Spoken Arabic (FSA) is a kind of lingua franca that is more natural than speaking Modern Standard Arabic (MSA), the literary form of the language. FSA uses the shared features of the various urban colloquial dialects, defaulting to Levantine (terms common to Lebanon, Syria, and Jordan) where the spoken dialects diverge. Each lesson includes cultural notes on American-Arab interactions, notes on learner strategies for managing Arabic conversations with a limited amount of language, and grammar explanations in clear, non-technical language. Although the main dialogue for each lesson is presented in Arabic script, transcriptions are used to accelerate spoken performance. The FAST Course includes grammatical explanations, English-Arabic and Arabic-English glossaries, appendices listing common idioms, courtesy expressions and other useful terms, instructor's notes, and drills aided and accompanied by the CD. Originally created for diplomats, this is an expanded and enhanced edition of a work originally developed by the U.S. State Department as a six-week intensive, or "FAST" (Familiarization and Short-Term) course, and is easily adaptable for students in Middle East area studies. Travelers heading for posts in the Arab world who quickly need to gain a basic ability to converse in day-to-day situations will find Formal Spoken Arabic FAST Course an invaluable companion.

The Book of Collateral Damage - Sinan Antoon 2019-05-28

Sinan Antoon returns to the Iraq war in a poetic and provocative tribute to reclaiming memory. Widely-celebrated author Sinan Antoon's fourth and most sophisticated novel follows Nameer, a young Iraqi scholar earning his doctorate at Harvard, who is hired by filmmakers to help document the devastation of the 2003 invasion of Iraq. During the excursion, Nameer ventures to al-Mutanabbi street in Baghdad, famed for its bookshops, and encounters Wadood, an eccentric bookseller who is trying to catalogue everything destroyed by war, from objects, buildings, books and manuscripts, flora and fauna, to humans. Entrusted with the catalogue and obsessed with Wadood's project, Nameer finds life in New York movingly intertwined with fragments from his homeland's past and its present--destroyed letters, verses, epigraphs, and anecdotes--in this stylistically ambitious panorama of the wreckage of war and the power of memory.

**Conversational Arabic Quick and Easy** - Yatir Nitzany 2019-01-19

THIS BOOK DOESN'T CONTAIN ANY ARABIC LETTERS! ALL ARABIC WORDS IN THIS BOOK WERE WRITTEN IN ENGLISH-TRANSLITERATION! Have you always wanted to learn how to speak the Saudi Hijazi Arabic dialect but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work—discoveries that are detailed further in this book—Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant—now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while embarking on a pilgrimage to Mecca, to

impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This book is recommended for those who already have some prior knowledge of the pronunciation of Arabic accents (such as the Arabic accents: ayin, ghayn, ha, and khaf). For those of you who do not, this book does indeed provide some great, in-depth techniques on the pronunciation and recognition of these accents, that you will encounter throughout the program. These techniques have proven extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. But keep in mind this isn't a pronunciation book! Keep in mind that Saudi dialect is not an official language, but rather is a colloquial dialect. The purpose of my method is solely to give you the tools to create your own sentences in order to become conversational, while in regards to grammar, pronunciation, etc., you are on your own! This method is designed for fluency in a foreign language, while communicating in the first person present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn the complex alphabet. More formalized training in grammar rules, etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Arabic Quick and Easy, all you need are forty-six pages. Learn Arabic today!

NEW TO THIS EDITION: - Arabic script has been added so the reader has a choice of following the Arabic writing or the transcription in the Roman alphabet. - Four entirely new lessons cover medical care, media (radio, television, and journalism), telephone conversations, and cultural and folkloric tales. - All audio materials from the first edition--plus new audio materials for the new lessons--are included as MP3 files on a CD bound into the book.

**The Modern Arabic Literary Language** - Jaroslav Stetkevych 2006

The Modern Arabic Literary Language is a thoughtful examination of the changes that the Arabic language has undergone in its transition from its roots in classical Arabic to a language able to meet the demands of twentieth-century life. In this volume a respected and masterful scholar of the Arabic language Jaroslav Stetkevych notes the ways that new words have been incorporated into the language, ranging from deriving

new terms from existing roots (for example, the word for "newspaper" derives from the word meaning "sheet to write on") to downright assimilation of foreign words. Also noting the changes in grammar and semantics, Stetkevych illustrates how literary Arabic has become a more flexible language. Originally published in 1970, this volume is a clear assessment of lexical and stylistic developments in Modern Literary Arabic. This classic book is an important resource for scholars and advanced students of Arabic language and linguistics who wish to study the complexities of language change and lexical expansion.

Modern Arabic - Clive Holes 2004

The revised and updated edition of Modern Arabic takes this authoritative, concise linguistic description of the structure and use of modern Arabic to an invaluable new level. Clive Holes traces the development of the Arabic language from Classical Arabic, the written language used in the 7th century for the Qur'an and poetry, through the increasingly symbiotic use of Modern Standard Arabic or MSA (the language of writing and formal speech) and dialectal Arabic (the language of normal conversation). He shows how Arabic has been shaped over the centuries by migration, urbanization, and education--giving us "a balanced, dispassionate, and accurate picture of the structures, functions, and varieties of the contemporary Arabic language." Holes explains the structural characteristics--phonology, morphology, syntax, semantics, and

lexical and stylistic developments--that the majority of the dialects share, as distinguished from Modern Standard Arabic. He also shows how native speakers use both types of Arabic for different purposes, with MSA being the language of power and control as used on television and in political speeches, and the dialects serving as the language of intimacy and domesticity. He further shows how MSA and spoken dialects are not as compartmentalized as one might be led to believe. Modern Arabic illustrates the use of the Arabic language in real life, whether in conversation, news bulletins and newspaper articles, serious literature, or song. This new edition takes into account research published in several areas of Arabic linguistics since the first edition was published in 1995. It includes more extensive comment on the North African Arabic vocabulary of Modern Standard Arabic, more information about "mixed" varieties of written Arabic that are not in MSA (especially in Egypt), updated references, explanations, and many new examples. All Arabic is transcribed, except for an appendix presenting the Arabic alphabet and script. Students of the Arabic language will find Modern Arabic without peer--as will those general linguists who are interested in discovering how Arabic compares structurally and sociolinguistically with European languages.

**Islam in the World Today** - Werner Ende 2011-12-15

Considered the most authoritative single-volume reference work on Islam in the contemporary world, the German-language *Der Islam in der Gegenwart*, currently in its fifth edition, offers a wealth of authoritative information on the religious, political, social, and cultural life of Islamic nations and of Islamic immigrant communities elsewhere. Now, Cornell University Press is making this invaluable resource accessible to English-language readers. More current than the latest German edition on which it is based, *Islam in the World Today* covers a comprehensive array of topics in concise essays by some of the world's leading experts on Islam, including: • the history of Islam from the earliest years through the twentieth century, with particular attention to Sunni and Shi'i Islam and Islamic revival movements during the last three centuries; • data on the advance of Islam along with current population statistics; • Muslim ideas on modern economics, on social order, and on attempts to modernize Islamic law (shari'a) and apply it in contemporary Muslim societies; • Islam in diaspora, especially the situation in Europe and America; • secularism, democracy, and human rights; and • women in Islam. Twenty-four essays are each devoted to a specific Muslim country or a country with significant Muslim minorities, spanning Asia, Africa, the Middle East, and the former Soviet Union. Additional essays illuminate Islamic culture, exploring local traditions; the languages and dialects of Muslim peoples; and art, architecture, and literature. Detailed bibliographies and indexes ensure the book's usefulness as a reference work.

It contains myriad examples of usage, including formulaic phrases and idiomatic expressions. Understandable throughout the nation, it is based primarily on the standard dialect of educated Moroccans from the cities of Fez, Rabat, and Casablanca. *The Acquisition of Egyptian Arabic as a Native Language* - Margaret K. Omar 2007

In 1968 Margaret K. Omar (Nydell) spent four months in a small Egyptian village called Sheikh Mubarak. Located in Middle Egypt near Al-Minya, residents of Sheikh Mubarak speak in a dialect closer to Sa'eedi, not the dialect spoken in Cairo. Omar spent time there conducting interviews, examinations, and taping

sessions with children and families to study primary language acquisition in non-Western languages. Based on her fieldwork, Omar describes the physical and social environment in which the native language was learned, the development of early communication and speech, and when and how children learn the phonology, vocabulary, morphology, and syntactical patterns of Egyptian Arabic. Omar makes comparisons with aspects of language acquisition of other languages, primarily English, and explores implications for the theory of language acquisition. Originally published in 1973, this book is the most thorough and complete

analysis of the stages in which children learn Arabic as a first language. The Arabic in this book is presented in transcription, making the information accessible to all linguists interested in language acquisition.
