Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Material Approaches to Roman Magic - Adam Parker 2018-04-30

This second volume in the new TRAC Themes in Roman Archaeology series seeks to push the research agendas of materiality and lived experience further into the study of Roman magic, a field that has, until recently, lacked object-focused analysis. Building on the pioneering studies in Boschung and Bremmer's (2015) *Materiality of Magic*, the editors of the present volume have collected contributions that showcase the value of richly-detailed, context-specific explorations of the magical practices of the Roman world. By concentrating primarily on the Imperial period and the western provinces, the various contributions demonstrate very clearly the exceptional range of influences and possibilities open to individuals who sought to use magical rituals to affect their lives in these specific contexts - something that would have been largely impossible in earlier periods of antiquity. Contributions are presented from a range of museum professionals, commercial archaeologists, university academics and postgraduate students, making a compelling case for strengthening lines of communication between these related areas of expertise.

The Carnivore Cookbook - Maria Emmerich 2020-01-07

Keto meets carnivore in this revolutionary new book by revered cookbook author and low-carb pioneer Maria Emmerich. Did you know that our ancestors were apex predators who were even more carnivorous than hyenas and big cats? That was only about 30,000 years ago. But since then, our diets have drastically changed due to the invention of agriculture about 7,000 years ago and, within the last 100 years or so, the introduction of millions of food additives, the development of a year-round produce supply, and the hybridization of fruits and vegetables, making them higher in sugar and lower in nutrients. *Carnivore Cookbook* explores what our bodies were really designed to digest and gives compelling evidence that we were designed to be primarily meat-eaters. In this book, you will learn why all plants come with a downside. Antinutrients are chemicals and compounds that act as natural pesticides or defenses for the plants against being eaten. Maria explains how antinutrients can rob your body of minerals and other nutrients and lead to autoimmune issues and leaky gut. There is even a protocol for healing autoimmune issues called the Carnivore Autoimmune Protocol: a detailed system for stepping you through the various levels of carnivorous eating to find the point where your body responds best and is symptom free. You will also learn which foods are the highest in nutrient density to help your body heal. *Carnivore Cookbook* includes more than 100 tasty meat-focused recipes featuring innovative ways to add flavor and variety. There are even carnivore meal plans with grocery lists to make the diet easy to follow.

The Healthy Compulsive - Gary Trosclair 2020-02-08

Gary Trosclair explores the power of the driven personality and the positive outcomes those with obsessive compulsive personality disorder can achieve through a mindful program of harnessing the skills that can work, and altering those that serve no one. If you were born with a compulsive personality you may become rigid, controlling, and self-righteous. But you also may become productive, energetic, and conscientious. Same disposition, but very different ways of expressing it. What determines the difference? Some of the most successful and happy people in the world are compelled by powerful inner urges that are almost impossible to resist. They're compulsive. They're driven. But some people with a driven personality feel compelled by shame or insecurity to use their compulsive energy to prove their worth, and they lose control of the wheel of their own life. They become inflexible and critical perfectionists who need to wield control, and they lose the point of everything they do in the process. A healthy compulsive is one whose energy and talents for achievement are used consciously in the service of passion, love and purpose. An unhealthy compulsive is one whose energy and talents for achievement have been hijacked by fear and its henchman, anger. Both are driven: one by meaning, the other by dread. *The Healthy Compulsive: Healing Obsessive-Compulsive Personality Disorder and Taking the Wheel of the Driven Personality*, will serve as the ultimate user's guide for those with a driven personality, including those who have slid into obsessive-compulsive personality disorder (OCPD). Unlike OCD, which results in specific symptoms such as repetitive hand-washing and intrusive thoughts, OCPD permeates the entire personality and dramatically affects relationships. It also requires a different approach to healing. Both scientifically informed and practical, *The Healthy Compulsive* describes how compulsives get off track and outlines a four-step program to help them consciously cultivate the talents and passions that are the truly compelling sources of the driven personality. Drawing from his 25 years of clinical experience as a psychotherapist and Jungian psychoanalyst, and his own personal

experience as someone with a driven personality, Trosclair offers understanding, inspiring stories of change, and hope to compulsives and their partners about how to move to the healthy end of the compulsive spectrum.

Scripting the Life You Want - Royce Christyn 2020-04-07

A step-by-step guide to the process of "scripting" your future and successfully manifesting what you want in life • Explores the science behind how the scripting method works and shares the vivid journal entries from the author's big breakthrough--when he successfully used his method to land a lead role on a TV show • Details how the understanding of incredible new (and, until now, mostly unheard of) scientific discoveries and emerging technologies is the most important key to creating and manifesting in your life • Reveals fun, easy tools for manifesting and self-help, updated for a new generation In this step-by-step guide, filled with success stories and practical exercises, Royce Christyn details a simple "scripting" process for harnessing the Law of Attraction and manifesting what you want in your life--happiness, wealth, travel, love, health, the perfect career, or simply a productive day. The process is backed by science and experience, yet it feels like magic. And all you need is a pen and paper. Inspired by New Thought and Positive Thinking classics, Christyn explains how he developed his scripting method through 4 years of trial and error, keeping what worked and dropping what didn't until he brought his success rate from 5% to nearly 100%. Sharing pages from his own journals, he outlines how to create the life you want with daily journaling exercises, beginning with a simple list-making practice to figure out your wants and intentions and then progressing to actual scripting of your future, whether the next 12 hours or the next 10 days. He shows how, over time, your scripts will increase in accuracy until they converge with reality. He shares the vivid entries from his big breakthrough--when he successfully used his method to land a lead guest-starring role on Disney Channel's *Wizards of Waverly Place* with Selena Gomez. He explores how "feeling" your future success as you write your daily scripts helps attract your desired outcomes, and he shares the key phrases to include to make your script come true. The author also explores the science behind how the scripting method works, including a down-to-earth examination of quantum mechanics. From small dreams to lifelong goals, this book gives you the tools to put your thoughts into action and finally close the gap between where you are and where you want to be in your life.
