The Mask of Reality - Irene Corey 1968

Techniques, philosophies, and ideas for visualizing abstractions in the theater through imaginative and symbolic design and redesign of plays, costumes, and make-up

Cinematography - Peter Ettedgui 1998

Cinematography is the first title in the Screencraft Series, a unique venture which aims to unravel for the first time the multi-layered language of film-making, by exploring the fusion of crafts which combine to create the most important art form of the 20th century. Although the cinematographer or director of photography rarely receives the kind of attention reserved for directors and actors, there is little doubt that this is the key technical role in the process of revealing a story through images. The cinematographers featured in this book encompass three generations of filmmaking and represent a diversity of film cultures. What they have in common is the contribution they have made to a universal cinema heritage and the fact that their work has helped to expand -- if not revolutionize -- the language of film. This book, featuring the world's finest cinematographers, will inspire practicing professionals, students, and movie buffs alike. This beautifully designed and illustrated book speaks in the voices of these cinematographers and through the powerful images they have created for the screen. The cinematographers

featured in this book encompass three generations of filmmaking and represent a diversity of film cultures, from "African Queen" to "Delicatessen." Highly illustrated -- over 500 color pictures and 300 black and white photos -- and written entirely based on each cinematographer's own words from interviews. This book, featuring the world's finest cinematographers, will inspire practicing professionals, students, and movie buffs alike.

Henry Bumstead and the World of Hollywood Art Direction -

Andrew Horton 2010-01-01

From a hotel in Marrakech in The Man Who Knew Too Much, to small-town Alabama in To Kill a Mockingbird, to Mission Control in Space Cowboys, creating a fictional, yet wholly believable world in which to film a movie has been the passion and life's work of Henry Bumstead, one of Hollywood's most celebrated production designers. In a career that has spanned nearly seventy years, Bumstead has worked on more than one hundred movies and television films. His many honors include

Academy Awards for Art Direction for *To Kill a Mockingbird* and *The Sting*, as well as nominations for *Vertigo* and *The Unforgiven*. This popularly written and extensively illustrated book tells the intertwining stories of Henry Bumstead's career and the evolution of Hollywood art direction. Andrew Horton combines his analysis of Bumstead's design work with wide-ranging interviews in which Bumstead talks about working with top directors, including Alfred Hitchcock, George Roy Hill, Robert Mulligan, and Clint Eastwood, as well as such stars as Paul Newman, Robert Redford, Doris Day, Jimmy Stewart, Sidney Poitier, Bill Cosby, Jerry Lewis, and James Cagney. Numerous production drawings, storyboards, and film stills illustrate how Bumstead's designs translated to film. This portrait of Bumstead's career underscores an art director's crucial role in shaping the look of a film and also tracks the changes in production design from the studio era through location shooting to today's use of high-tech special effects.

[Voice and Vision: A Creative Approach to Narrative Film and DV Production](#) - Mick Hurbis-Cherrier 2007-03-13

Voice & Vision is a comprehensive manual for the independent filmmakers and film students who want a solid grounding in the tools, techniques, and processes of narrative film in order to achieve their artistic vision. This book includes essential and detailed information on relevant film and digital video tools, a thorough overview of the filmmaking stages, and the aesthetic considerations for telling a visual story. The ultimate goal of this book is to help you develop your creative voice while acquiring the solid practical skills and confidence to use it. Unlike many books that privilege raw technical information or the line-producing aspects of production, *Voice & Vision* places creativity, visual

expression, and cinematic ideas front and center. After all, every practical decision a filmmaker makes, like choosing a location, an actor, a film stock, a focal length, a lighting set-up, an edit point, or a sound effect is also an expressive one and should serve the filmmaker's vision. Every decision, from the largest conceptual choices to the smallest practical solutions, has a profound impact on what appears on the screen and how it moves an audience. "In Practice" sidebars throughout *Voice & Vision* connect conceptual, aesthetic and technical issues to their application in the real world. Some provide a brief analysis of a scene or technique from easily rentable films which illustrate how a specific technology or process is used to support a conceptual, narrative, or aesthetic choice. Others recount common production challenges encountered on real student and professional shoots which will inspire you to be innovative and resourceful when you are solving your own filmmaking challenges.

Film Architecture and the Transnational Imagination - Tim Bergfelder 2007

Summary: "Film Architecture and the Transnational Imagination presents for the first time a comparative study of European film set design in the late 1920s and 1930s; based on a wealth of designers' drawings, film stills and archival documents, the book offers a new insight into the development and significance of trans-national artistic collaboration during this period. European cinema from the late 1920s to the late 1930s is famous for its attention to detail in terms of set design and visual effect. Focusing on developments in Britain, France, and Germany, *Film Architecture and the Transnational Imagination: Set Design in 1930s European Cinema* provides a comprehensive analysis of the practices, styles, and function of cinematic production design during this period, and its influence on subsequent filmmaking patterns."-- Publisher description.

Building Sci-fi Moviescapes - Matt Hanson 2005

Building Sci-fi Moviescapes provides a rare, behind-the-scenes examination of how the digital city and space-scapes in science fiction movies are created through the eyes of directors, producers, production

designers, and visualization artists. This is a stunning showcase of some of the most impressive digital city and space-scapes to come out of the movies, from Hollywood, as well as the Japanese and European film industries. From seminal movies of the 1980s such as Tron and Bladerunner, to classic series such as The Matrix and Star Wars, to recent films such as Sky Captain and the World of Tomorrow, this book is the definitive guide to the imagined aesthetics of the future. Through authoritative commentary and interviews with key directors, producers, production designers, and 3D visual artists, Building Sci-fi Moviescapes explores trends and digital visualization methods in science fiction films from the last three decades. * A celebration in design and creativity in Sci-Fi filmmaking for the CG artist * Access to revealing interviews with key 3D industry professionals * Rich creative inspiration for Sci-Fi filmmakers

From Film Practice to Data Process - Sarah Atkinson 2017-12-20

To what extent have digital innovations transformed the UK film industry? What new practices and processes are emerging within the contemporary UK filmmaking landscape? What impact is this having upon filmmaking professionals? The business of conventional feature filmmaking is like no other, in that it assembles a huge company of people from a range of disciplines on a temporary basis, all to engage in the collaborative endeavour of producing a unique, one-off piece of work. By focusing on the pivotal year of 2012, and by considering the input of every single contributor to the process, this book illuminates how this period of analogue to digital transition is impacting upon working practices, cultures, opportunities and structures in the industry, and examines the various causative forces behind their adoptions and resistances. With an in-depth case study of Sally Potter's 2012 film 'Ginger & Rosa', and drawing upon interviews with international film industry practitioners, 'From Film Practice to Data Process' is a groundbreaking examination of film production in its totality, in a moment of profound change.

Production Design - Jane Barnwell 2019-07-25

Production Design: Architects of the Screen explores the role of the production designer through a historical overview that maps out landmark film and television designs. From the familiar environs of television soap operas to the elaborate and disorientating Velvet

Goldmine. Jane Barnwell considers how themes, motifs and colours offer clues to unravel plot, character and underlying concepts. In addressing the importance of physical space in film and TV, the book investigates questions of authenticity in detail, props, colours and materials. The design codes of period drama, more playful representations of the past and distinctive contemporary looks are discussed through the use of key examples ranging from musicals of the 1930s to cult films of the 1990s. The book also includes interviews with leading production designers and studies of *Trainspotting*, *The English Patient* and *Caravaggio*.

The Filmmaker's Guide to Production Design - Vincent LoBrutto 2002-05-01

Learn to turn a simple screenplay into a visual masterpiece! Top production designers share their real-life experiences to explain the aesthetic, narrative, and technical aspects of the craft. Step by step, aspiring filmmakers will discover sound instruction on the tools of the trade, and established filmmakers will enjoy a new outlook on production design. They will learn, for example, the craft behind movie magic—such

as how to create a design metaphor, choose a color scheme, use space, and work within all genres of film, from well-funded studio projects to "guerilla filmmaking." This indispensable resource also contains a history of movie making and guidelines for digital production design. For the experienced filmmaker seeking new design ideas to the struggling newcomer stretching low-budget dollars, this book makes the processes and concepts of production design accessible. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Screenwriting Down to the Atoms - Michael Welles Schock 2013-01

There are many books on screenwriting that claim to have all the answers. Unfortunately, quite often the more aspiring writers read, the more confused they become as they encounter contradictory statements, incomplete perspectives, and methods that fail to do more than scratch the surface. "Screenwriting Down to the Atoms" was written to end all the confusion. It picks up where the best leave off and makes up for where the rest fall short by looking closer and digging deeper to reveal the "true" principles beneath great cinematic stories. No confusion. No contradictions. "Atoms" provides a light in the dark to give a full, simple, and truly effective understanding of the craft. "Screenwriting Down to the Atoms" takes the basics "far beyond" the basics. It begins by putting the entire field under the microscope to challenge, and often refute, ideas writers have been taught to assume for decades. It then builds a simple, systematic approach clear enough for any writer to understand and put directly into use. Readers will discover storytelling's "golden key" - an elegantly-simple structure that forms the basis of all other

structures. They will learn how to satisfy viewers by meeting the responsibilities of the "storyteller-audience relationship." They will understand how to creatively control story information to give a narrative the greatest dramatic impact. Most writers toil for years to learn these principles. With "Atoms," you can have this knowledge from the very start. Whether you are working on your fifteenth screenplay or your first, "Screenwriting Down to the Atoms" gives indispensable knowledge found in no other source. "Atoms" is screencraft for the 21st century. The next generation of guides for the next generation of writers.

Franco Zeffirelli - Caterina Napoleone 2010-11-01

In a career spanning more than 60 years, Franco Zeffirelli established himself as the world's most gifted, original, and flamboyant director of opera, theatre, and film. Here is the definitive book on the life and work of this great master of spectacle. Produced in full cooperation with Zeffirelli and his family, it explores every aspect of his astonishing achievement in the performing arts. The performance shots of classic stage productions are particularly revealing, each a lasting testament to Zeffirelli's visual expertise. Even more suggestive are Zeffirelli's costume sketches, set designs, and technical drawings, which reveal the artist's mind through the artist's hand. Both a monument to an artistic genius and a magnificent piece of bookmaking, *Franco Zeffirelli: Complete Works* is a must-have book for anyone who has been moved by the works of the master. Praise for *Franco Zeffirelli: Complete Works*: "Only a gorgeous, massive ten-pound book well over a foot long would do for the Italian master of gargantuan opera productions." -The Los Angeles Times
Mielziner - Mary C. Henderson 2001

Jo Mielziner (1901-1976) was an acclaimed scenic designer of the American theatre. Over five decades his career spanned the flowering of the modern theatre in the USA, and he designed many of its most famous productions, including "A Streetcar Named Desire", "Death of a Salesman", "Guys and Dolls" and "Carousel". He worked with a roster of great playwrights, directors and producers on a staggering total of 260 shows, many of them theatrical premieres, but also including ballets, operas and motion pictures. He pioneered many concepts of design - such

as the capturing of a visual metaphor for the production -that are taken for granted today. His influence on succeeding generations has been enormous. This study covers his life and work and is illustrated with sketches and fully-rendered designs.

Building Interactive Worlds in 3D - Jean-Marc Gauthier 2013-05-02

In Building Interactive Worlds in 3D readers will find turnkey tutorials that detail all the steps required to build simulations and interactions, utilize virtual cameras, virtual actors (with self-determined behaviors), and real-time physics including gravity, collision, and topography. With the free software demos included, 3D artists and developers can learn to build a fully functioning prototype. The book is dynamic enough to give both those with a programming background as well as those who are just getting their feet wet challenging and engaging tutorials in virtual set design, using Virtools. Other software discussed is: Lightwave, and Maya. The book is constructed so that, depending on your project and design needs, you can read the text or interviews independently and/or use the book as reference for individual tutorials on a project-by-project basis. Each tutorial is followed by a short interview with a 3D graphics professional in order to provide insight and additional advice on particular interactive 3D techniques-from user, designer, artist, and producer perspectives.

Cinematic TV - Rashna Wadia Richards 2021-04-30

For decades after its invention, television was considered by many to be culturally deficient when compared to cinema, as analyses rooted in

communication studies and the social sciences tended to focus primarily on television's negative impact on consumers. More recently, however, denigration has largely been replaced by serious critical consideration of what television represents in the post-network era. Once derided as a media wasteland, TV is now praised for its visual density and complexity. In the last two decades, media scholars have often suggested that television has become cinematic. Serial dramas, in particular, are acclaimed for their imitations of cinema's formally innovative and narratively challenging conventions. But what exactly does "cinematic TV" mean? In Cinematic TV, author Rashna Wadia Richards takes up this question comprehensively, arguing that TV dramas quote, copy, and appropriate (primarily) American cinema in multiple ways and toward multiple ends. Constructing an innovative theoretical framework by combining intertextuality and memory studies, Cinematic TV focuses on four modalities of intermedial borrowings: homage, evocation, genre, and parody. Through close readings of such exemplary shows as Stranger Things, Mad Men, Damages, and Dear White People, the book demonstrates how serial dramas reproduce and rework, undermine and idolize, and, in some cases, compete with and outdo cinema.

Voice and Vision - Mick Hurbis-Cherrier 2012-11-12

Voice & Vision is a comprehensive manual for the independent filmmakers and film students who want a solid grounding in the tools, techniques, and processes of narrative film in order to achieve their artistic vision. This book includes essential and detailed information on relevant film and digital video tools, a thorough overview of the filmmaking stages, and the aesthetic considerations for telling a visual story. The ultimate goal of this book is to help you develop your creative voice while acquiring the solid practical skills and confidence to use it. Unlike many books that privilege raw technical information or the line-producing aspects of production, Voice & Vision places creativity, visual expression, and cinematic ideas front and center. After all, every practical decision a filmmaker makes, like choosing a location, an actor, a film stock, a focal length, a lighting set-up, an edit point, or a sound effect is also an expressive one and should serve the filmmaker's vision.

Every decision, from the largest conceptual choices to the smallest practical solutions, has a profound impact on what appears on the screen and how it moves an audience. "In Practice" sidebars throughout connect conceptual, aesthetic and technical issues to their application in the real world. Some provide a brief analysis of a scene or technique from easily rentable films which illustrate how a specific technology or process is used to support a conceptual, narrative, or aesthetic choice. Others recount common production challenges encountered on real student and professional shoots which will inspire you to be innovative and resourceful when you are solving your own filmmaking challenges.

Film Architecture and the Transnational Imagination - Tim Bergfelder 2007

Summary: "Film Architecture and the Transnational Imagination presents for the first time a comparative study of European film set design in the late 1920s and 1930s; based on a wealth of designers' drawings, film stills and archival documents, the book offers a new insight into the development and significance of trans-national artistic collaboration during this period. European cinema from the late 1920s to the late 1930s is famous for its attention to detail in terms of set design and visual effect. Focusing on developments in Britain, France, and Germany, *Film Architecture and the Transnational Imagination: Set Design in 1930s European Cinema* provides a comprehensive analysis of the practices, styles, and function of cinematic production design during this period, and its influence on subsequent filmmaking patterns."-- Publisher description.

Production Design & Art Direction - Peter Ettedgui 1999

In *Production Design and Art Direction* sixteen of the world's greatest production designers discuss their craft, revealing the creative process which led to the look of the most memorable films of our time. Contributors include Dean Tavoularis (*Godfather Trilogy*), Dante Ferretti (whose work with Fellini, Pasolini and Scorsese covers the span of the best of Italian cinema) and Anna Asp (*Fanny and Alexander*). As aesthetically appealing as any art book, *Production Design and Art*

Direction is densely illustrated with drawings, scripts, storyboards and models, as well as stills from the films. This book is part of the Screencraft series, which includes the enormously successful Cinematography, also by Peter Ettedgui and published by Focal Press in the US. The text is based on the words of 16 masters of the craft Beautifully produced and lavishly illustrated with drawings, scripts, storyboards, models and stills from memorable films Part of the Screencraft series, the first books to explore the crafts of filmmaking by tracing the entire creative process through the eyes of leading practitioners

Martin Scorsese: A Biography - Vincent LoBrutto 2007-11-30

Martin Scorsese's current position in the international film community is unrivaled, and his name has become synonymous with the highest standards of filmmaking excellence. He is widely considered America's best living film director, and his Taxi Driver and Raging Bull appear frequently on worldwide surveys of the best films of all time. Here, in the first biographical account of this artist's life, Vincent LoBrutto traces Scorsese's Italian-American heritage, his strict Catholic upbringing, the continuing role of religion in his life and art, his obsessive love of cinema history, and the powerful impact that the streets of New York City had on his personal life and his professional career. Meanwhile, the filmmaker's humble, soft-spoken public persona tells only part of the story, and LoBrutto will delve into the other side of a complex and often tortured personality. Scorsese's intense passion, his private relationships, his stormy marriages, and his battles with drugs and depression are all chronicled here, and, in many cases, for the first time. In addition, the book includes an interview with the director, as well as filmographies cataloging his work as a director, producer, actor, and presenter. As his Best Director award at the 2007 Oscars clearly demonstrated, Scorsese has become something like Hollywood royalty in recent years, finally enjoying the insider status and favor that eluded him for most of his career. But these recent developments aside, Scorsese is also notable as a distinctly American type of artist, one whose work-created in a medium largely controlled by commercialism and marketing-has always been

unmistakably his own, and who thus remains a touchstone of artistic integrity in American cinema. In Martin Scorsese: A Biography, readers can examine not only the work of one of the form's genuine artists, but also the forces that have propelled the man behind it.

Cinematography: Theory and Practice - Blain Brown 2013-05-02

There's more to being a DP than holding a light meter! With this book as your guide, you are on your way to learning not only about the equipment and technology, but also about the concepts and thought processes that will enable you to shoot professionally, efficiently, and with artistic mastery. A leading book in the field, Cinematography has been translated into many languages and is a staple at the world's top film schools. Lavishly produced and illustrated, it covers the entire range of the profession. The book is not just a comprehensive guide to current professional practice; it goes beyond to explain the theory behind the practice, so you understand how the rules came about and when it's appropriate to break them. In addition, directors will benefit from the book's focus on the body of knowledge they should share with their Director of Photography. Cinematography presents the basics and beyond, employing clear explanations of standard practice together with substantial illustrations and diagrams to reveal the real world of film production. Recognizing that professionals know when to break the rules and when to abide by them, this book discusses many examples of fresh ideas and experiments in cinematography. Covering the most up-to-date information on the film/digital interface, new formats, the latest cranes and camera support and other equipment, it also illustrates the classic tried and true methods.

Ming Cho Lee - Arnold Aronson 2014-12-02

A celebration of "the dean of American set designers" (The New York Times).

Four Screenplays - Syd Field 1994-08-01

Yes, you can write a great screenplay. Let Syd Field show you how. "I based *Like Water for Chocolate* on what I learned in Syd's books. Before, I always felt structure imprisoned me, but what I learned was structure really freed me to focus on the story."—Laura Esquivel Technology is transforming the art and craft of screenwriting. How does the writer find new ways to tell a story with pictures, to create a truly outstanding film? Syd Field shows what works, why, and how in four extraordinary films: *Thelma & Louise*, *Terminator 2: Judgement Day*, *The Silence of the Lambs*, and *Dances with Wolves*. Learn how: Callie Khouri, in her first movie script, *Thelma & Louise*, rewrote the rules for good road movies and played against type to create a new American classic. James Cameron, writer/director of *Terminator 2: Judgement Day*, created a sequel integrating spectacular special effects and a story line that transformed the Terminator, the quintessential killing machine, into a sympathetic character. This is how an action film is written. Ted Tally adapted Thomas Harris's chilling 350-page novel, *The Silence of the Lambs*, into a riveting 120-page script—a lesson in the art and craft of adapting novels into film. Michael Blake, author of *Dances with Wolves*, achieved every writer's dream as he translated his novel into an uncompromising film. Learn how he used transformation as a spiritual dynamic in this work of mythic sweep. Informative and utterly

engrossing, *Four Screenplays* belongs in every writer's library, next to Syd Field's highly acclaimed companion volumes, *Screenplay*, *The Screenwriter's Workbook*, and *Selling a Screenplay*. "If I were writing screenplays . . . I would carry Syd Field around in my back pocket wherever I went."—Steven Bochco, writer/producer/director, *L.A. Law*, *Hill Street Blues*

Screenwriting - Declan McGrath 2003

The 13 screenwriters gathered together in this book are world-class storytellers, whose skill at delineating plot and capturing character make them internationally renowned and respected. The contributors speak directly to the reader, allowing a rare insight into the creative process of the screenwriter. The interviews are illustrated with script excerpts, hand-written notes, storyboards, film stills, and photographs from the screenwriters' own personal collections. Film-making is all about telling stories. While the director is the person responsible for pulling all the aspects of film-making together, the screenwriter creates the backbone of the film; suggesting location, forming and sustaining plot and devising and building character. The screenwriters in this book come from the US, Ireland, Poland, Italy, Japan, France, Germany, and Canada. In-dept interviews with world-renown screenwriters about the craft Full-color, oversized book with 450 color photographs A show and tell of how words on the page transform into action on film

Art Direction and Production Design - Lucy Fischer 2015-03-06

How is the look of a film achieved? In *Art Direction and Production Design*, six outstanding scholars survey the careers of notable art directors, the influence of specific design styles, the key roles played by particular studios and films in shaping the field, the effect of technological changes on production design, and the shifts in industrial modes of organization. The craft's purpose is to produce an overall pictorial "vision" for films, and in 1924 a group of designers formed the Cinemagundi Club—their skills encompassed set design, painting, decoration, construction, and budgeting. A few years later, in recognition of their contributions to filmmaking, the first Academy Awards for art direction were given, a clear indication of just how essential the

oversight of production design had become to the so-called majors. The original essays presented in *Art Direction and Production Design* trace the trajectory from Thomas Edison's primitive studio, the *Black Maria*, to the growth of the Hollywood "studio system," to the influence of sound, to a discussion of the "auteur theory," and to contemporary Hollywood in which computer-generated imagery has become common. By 2000, the Society of Motion Picture Art Directors became the Art Directors Guild, emphasizing the significance of the contributions of art direction and production design to filmmaking. *Art Direction and Production Design* is a volume in the *Behind the Silver Screen* series—other titles in the series include *Acting*, *Animation*, *Cinematography*, *Directing*, *Editing and Special/Visual Effects*, *Producers*, *Screenwriting*, and *Sound*.

Screenwriting - Paul Joseph Gulino 2013-09-23

The great challenge in writing a feature-length screenplay is sustaining audience involvement from page one through 120. *Screenwriting: The Sequence Approach* expounds on an often-overlooked tool that can be

key in solving this problem. A screenplay can be understood as being built of sequences of about fifteen pages each, and by focusing on solving the dramatic aspects of each of these sequences in detail, a writer can more easily conquer the challenges posed by the script as a whole. The sequence approach has its foundation in early Hollywood cinema (until the 1950s, most screenplays were formatted with sequences explicitly identified), and has been rediscovered and used effectively at such film schools as the University of Southern California, Columbia University and Chapman University. This book exposes a wide audience to the approach for the first time, introducing the concept then providing a sequence analysis of eleven significant feature films made between 1940 and 2000: *The Shop Around The Corner* / *Double Indemnity* / *Nights of Cabiria* / *North By Northwest* / *Lawrence of Arabia* / *The Graduate* / *One Flew Over the Cuckoo's Nest* / *Toy Story* / *Air Force One* / *Being John Malkovich* / *The Fellowship of the Ring*
