The book is a synthesis of the ancient Bharatiya texts, with the latest scientific findings for their authenticity, historicity, and relevance to the modern perspective. Rethinking India's Oral and Classical Epics - Alf Hiltebeitel 2009-02-15

Throughout India and Southeast Asia, ancient

classical epics—the Mahabharata and the Ramayana—continue to exert considerable cultural influence. Rethinking India's Oral and Classical Epics offers an unprecedented exploration into South Asia's regional epic traditions. Using his own fieldwork as a starting point, Alf Hiltebeitel analyzes how the oral tradition of the south Indian cult of the goddess Draupadi and five regional martial oral epics compare with one another and tie in with the Sanskrit epics. Drawing on literary theory and cultural studies, he reveals the shared subtexts of the Draupadi cult Mahabharata and the five oral epics, and shows how the traditional plots are twisted and classical characters reshaped to reflect local history and religion. In doing so, Hiltebeitel sheds new light on the intertwining oral traditions of medieval Rajput military culture, Dalits ("former Untouchables"), and Muslims. Breathtaking in scope, this work is indispensable for those seeking a deeper understanding of South Asia's Hindu and Muslim traditions. This work is the third volume in Hiltebeitel's study of the Draupadi cult. Other volumes include Mythologies: From Ginee to Kuruksetra (Volume One), On Hindu Ritual and the Goddess (Volume Two), and Rethinking the Mahabharata (Volume Four).

The Secret Life of Another Indian Nationalism - Shail Mayaram 2022-03-31

Nationalism is among the most influential ideas that has shaped the 'Metamorphoses of the

Political' in the long twentieth century. This book focuses on exclusivist Indian nationalism and identifies its distinction from inclusivist nationalism. It highlights shifts in 'another Indian nationalism' over the last two centuries as the geopolitical context has transitioned from the Pax Britannica to the Pax Americana and its war on terror. The books braids the following three strands together: first, a majoritarian nationalist ideology called Hindutva; second, the making of popular history as a precolonial epic is highlighted, depicting the defeat of the last Hindu Emperor by a conquering Muslim Sultan purportedly leading to eight centuries of Hindu enslavement and third, the 'reconversion' of a community by the Visva Hindu Parishad with consequences for Lived Hinduism and Indic civilisation with its complex identities.

History and Collective Memory in South Asia,
1200-2000 - Sumit Guha 2019-11-01

In this far-ranging and erudite exploration of the
South Asian past, Sumit Guha discusses the
shaping of social and historical memory in
world-historical context. He presents memory as
the result of both remembering and forgetting

and of the preservation, recovery, and decay of records. By describing how these processes work through sociopolitical organizations, Guha delineates the historiographic legacy acquired by the British in colonial India; the creation of the centralized educational system and mass production of textbooks that led to unification of historical discourses under colonial auspices; and the divergence of these discourses in the twentieth century under the impact of nationalism and decolonization. Guha brings together sources from a range of languages and regions to provide the first intellectual history of the ways in which socially recognized historical memory has been made across the subcontinent. This thoughtful study contributes to debates beyond the field of history that complicate the understanding of objectivity and documentation in a seemingly post-truth world.

Objects of Translation - Finbarr Barry Flood
2022-07-12

Objects of Translation offers a nuanced approach to the entanglements of medieval elites in the regions that today comprise Afghanistan, Pakistan, and north India. The book--which ranges in time from the early eighth to the early thirteenth centuries--challenges existing narratives that cast the period as one of enduring hostility between monolithic "Hindu" and "Muslim" cultures. These narratives of conflict have generally depended upon premodern texts for their understanding of the past. By contrast, this book considers the role of material culture and highlights how objects such as coins, dress, monuments, paintings, and sculptures mediated diverse modes of encounter during a critical but neglected period in South Asian history. The book explores modes of circulation--among them looting, gifting, and trade--through which artisans and artifacts traveled, remapping cultural boundaries usually imagined as stable and static. It analyzes the relationship between mobility and practices of cultural translation, and the role of both in the emergence of complex transcultural identities. Among the subjects discussed are the rendering of Arabic sacred texts in Sanskrit on Indian coins, the adoption of Turko-Persian dress by Buddhist rulers, the work of Indian stone masons in Afghanistan, and the incorporation of carvings from Hindu and Jain temples in early Indian mosques. Objects of Translation draws upon contemporary theories of cosmopolitanism and globalization to argue for radically new

approaches to the cultural geography of premodern South Asia and the Islamic world. *DP's SSC MTS General Awareness [Previous Year Questions]* - Mocktime Publication
