Teacher Training for English-Medium Instruction in Higher Education - Sánchez-Pérez, Maria del Mar 2020-02-07

English-medium instruction (EMI) has become a pervasive teaching model in recent higher education. The implementation of EMI programs requires changes in university teaching methods since most lecturers need to adapt their contents and the way they teach them to successfully work in foreign language environments. The rapid proliferation of such programs has resulted in concern among teaching staff, who have felt pushed towards teaching their subject content through a non-native language with little or no previous training. As a result, many recent studies have highlighted the importance and urgency to train teaching staff in terms of language proficiency and the appropriate teaching methods, techniques, and strategies to be applied in EMI lessons. *Teacher Training for English-Medium Instruction in Higher Education* is an academic research publication that provides comprehensive research on effective approaches and experiences in teacher training for EMI at universities both in terms of language skills and teaching methodologies and that analyzes the design and development of comprehensive teacher training programs that successfully engage these EMI programs. It has profound implications for the development of the international profile of higher education institutions as it provides information on how to train highly-qualified lecturers to successfully teach students from different nationalities. Featuring a wide range of topics such as assessment, curriculum design, and learning styles, this book is ideal for pre- and in-service teachers, language specialists, content specialists, administrators, deans, higher education faculty, researchers,

practitioners, curriculum designers, policymakers, academicians, and students.

Liberating The Learner - Terry Atkinson 2013-12-16

There is clear evidence that the quality of children's learning in school is very dependant on the style of the teacher's approach and the learning environment he or she creates. This, in turn, is a reflection of teachers own beliefs, anxieties and enthusiasms about learning, often gained through their own educational experiences. This edited volume provides a new framework for exploring teachers' views on a whole range of professional issues, for instance the nature of teaching and learning, the needs of students, and their own abilities as learners. Within this is presented a variety of case studies which illustrate how teachers' views impact upon students' learning. The book builds on the well established assumption that teachers are themselves also learners and that the learning processes involved in professional development are in many ways the same as those involved in a classroom context. It shows how the conclusions drawn from this study can be used in a practical way to assist teachers' professional development throughout their career. All teacher trainers and mentors who take seriously their role of helping children to be resourceful, resilient and reflective learners will find that this book helps them to achieve this aim.

basic diagram, the Tree of Life, is a system of relationships among mystical symbols that can be used to gain access to the hidden reaches of the mind. He also demonstrates how the Qabalah is applicable to all mystical traditions and religious beliefs, including Christian mysticism, Greek, Egyptian and Celtic mythologies, and even Native American beliefs. It is indeed symbolic of our universal search for the Divine. Included here are two books in one. The first compares the Western Mystery Tradition with the Eastern system of yoga, analyzes the Tree of Life in full detail, and describes the practical application and theories of Qabalistic symbolism. The second gives the most comprehensive analysis ever published of the twenty-two 'Paths of Concealed Glory' that join the Spheres of the Tree of Life taking into account the Hebrew alphabet, astrological signs, and tarot trumps. A large section explores the history of tarot design and the varying systems of correspondence with the Tree of Life.

Grammar for Teachers - Andrea DeCapua 2016-07-28

Updated and revised with more examples and expanded discussions, this second edition continues the aim of providing teachers with a solid understanding of the use and function of grammatical structures in American English. The book avoids jargon and presents essential grammatical structures clearly and concisely. Dr. DeCapua approaches grammar from a descriptive rather than a prescriptive standpoint, discussing differences between formal and informal language, and spoken and written English. The text draws examples from a wide variety of authentic materials to illustrate grammatical concepts. The many activities throughout the book engage users in exploring the different elements of grammar and in considering how these elements work together to form meaning. Users are encouraged to tap into their own, often subconscious, knowledge of grammar to consciously apply their knowledge to their own varied teaching settings. The text also emphasizes the importance of understanding grammar from the perspective of English language learners, an approach that allows teachers to better appreciate the difficulties these learners face. Specific areas of difficulties for learners of English are highlighted throughout.

An Entire MBA in 1 Course - Chris Haroun 2016-02-09

** ACCORDING TO BUSINESS INSIDER: "Getting your MBA has never been easier. Haroun is one of the highest rated professors on Udemy, so you can expect to be in good hands through the course of your education." ** This is the book version of the popular Udemy.com course called "An Entire MBA in 1 Course." From the Author of "101 Crucial Lessons They Don't Teach You in Business School," which Forbes

magazine calls "1 of 6 books that all entrepreneurs need to read right now." This book will teach you everything you need to know about business...from starting a company to taking it public. Most business books are significantly outdated. This book leverages many online resources and makes the general business, accounting and finance process very easy to understand (and enjoyable too)! There are many incredibly engaging and entertaining video links in the book to YouTube and other sources; 'edutainment' works! Although this book is close to 400 pages, I tried to visualize the content of this book as much as possible as this is a more impactful and enjoyable way to learn (think Pinterest versus the tiny words in the Economist)! The contents of this book are all based on my work experience at several firms, including Goldman Sachs, the consulting industry at Accenture, a few companies I have started, the hedge fund industry where I worked at Citadel and most recently, based on my experience at a prominent San Francisco based venture capital firm. I also included many helpful practical business concepts I learned while I did an MBA at Columbia University and a Bachelor of Commerce degree at McGill University. Think of this book as a "greatest hits" business summary from my MBA, undergraduate business degree, work experience in consulting, equities, hedge funds, venture capital and starting my own companies. As the title of this book suggests, this is an entire MBA in one book; it's also a practical manual to help you accomplish your business career goals. I have minimized "boring theoretical concepts" in this book in order to keep it as close to reality as possible. I hope you enjoy it! In addition to teaching at 4 universities in the San Francisco Bay Area, you can find other courses that I teach online at www.udemy.com/user/chris-haroun/. [Professional competencies in language learning and teaching](#) - Cecilia Goria 2019-06-08

These issues were discussed at the Professional Competencies in Language Learning and Teaching conference that took place on 12th-13th July 2018 at the University of Nottingham. The conference that was organised as a collaboration between the Department of Modern Languages and Cultures and the Confucius Institute of the University of Nottingham brought together researchers, practitioners, employers, and experts working on 21st century professional competencies and language education.
