I did all this today (as I'm writing this book) by waking up at 4am and just 'doing it'. **The Mask of Masculinity** - Lewis Howes 2017-10-31

At 30 years old, Lewis Howes was outwardly thriving but unfulfilled inside. He was a successful athlete and

businessman, achieving goals beyond his wildest dreams, but he felt empty, angry, frustrated, and always chasing something that was never enough. His whole identity had been built on misguided beliefs about what "masculinity" was. Howes began a personal journey to find inner peace and to uncover the many masks that men – young and old – wear. In *The Mask of Masculinity*, Howes exposes the ultimate emptiness of the Material Mask, the man who chases wealth above all things; the cowering vulnerability that hides behind the Joker and Stoic Masks of men who never show real emotion; and the destructiveness of the Invincible and Aggressive Masks worn by men who take insane risks or can never back down from a fight. He teaches men how to break through the walls that hold them back and shows women how they can better understand the men in their lives. It's not easy, but if you want to love, be loved and live a great life, then it's an odyssey of self-discovery that all modern men must make. This book is a must-read for every man – and for every woman who loves a man.

*The Pantry Principle* - Mira Dessy Ne 2013-03

From the days of hunter-gathers to modern shoppers attempting to decipher the complexity of products on food shelves today, the way we procure our food has changed dramatically. But our need for proper nourishment remains the same. Processed food, fast food, adulterated, and chemically enhanced foods make navigating the stocking of our pantries with healthy foods a truly mystifying chore. Many of us don't know where this food comes from, and we don't know what's really in it. Most people who walk into a grocery store think that all of the edible-appearing products on the shelves are food. The truth is that many of them are not! Many of these items contain ingredients that have the potential to be harmful. Even though legislation generally protects us against illegal food substances, evidence is showing many items to be either unsafe or at the very least not nutritious or healthful food options. We are seduced by the pretty pictures on the box or the marketing claims by the manufacturer. We don't really know what's in our food, trusting that if they are selling it we can eat it. This book will help you take back control of your pantry and your food source. You will discover those items that are not contributing nutrition value and perhaps detracting from your health and that of your loved ones. You will learn how to stock your pantry with the healthiest choices available.
